FL & NC | 316-299-9034 | milliemplores@gmail.com

Florida State University | **Applied Mathematics and Computer Science** | 2016-2020

Technical Skills

Excel (advanced formulas, Power Query), SQL (MySQL/T-SQL), Python (pandas), Tableau, Jira, Power BI (Power Query, Power Pivot)

Work Experience

Fleet Procurement Analyst Hertz | Estero, FL | 04/2025 - Present

- Design analyses for over 200K vehicle acquisitions (valued over \$6 Billion) by modeling depreciation, residual values, and OEM incentives to guide procurement strategy.
- Partner with the SVP, President of Fleet Procurement, and C-suite executives to deliver actionable insights supporting high-visibility purchasing decisions.
- Daily use of Excel, SQL, Python, and Tableau to compile, validate, and visualize large datasets, ensuring accuracy and clarity in decision-ready reporting.
- Build dashboards and presentation materials that streamline executive reviews and standardize reporting workflows across procurement initiatives.

Financial Reporting Analyst Edenred Pay | Bonita Springs, FL | 04/2023 - 11/2024

- Partnered with major banks, hospitality, and media organizations to deliver actionable insights into cash flow, spending patterns, and operational efficiencies, driving enhanced business performance.
- Developed interactive Power BI, Tableau dashboards that provided stakeholders with real-time, clear, and actionable insights, streamlining reporting processes and decision-making.
- Utilized SQL to extract, transform, and manage large datasets, ensuring data integrity and reliability for both internal operations and client-facing analytics.

Contact Center Data Analyst Insite Managed Solutions | Cape Coral FL | 02/2022 - 03/2023

- Conducted comprehensive analysis of complex contact center data sets. Identified trends, patterns, and insights to support executive decision-making processes and meet financial objectives.
- Uncovered and resolved gaps in processes and systems, tested and validated solutions, and provided organizational change management support to ensure seamless implementation.
- Leveraged Microsoft Excel's advanced functionalities, including advanced formulas, pivot tables, and limited VBA and macro automation, to manipulate complex data, analyze trends, and generate detailed reports that drove data-informed decision-making across teams.

Retail Operations Support Ace Hardware | Fort Myers, FL | 08/2020 – 01/2022

- Used SAP, Excel analytics, and electronic ordering systems knowledge to manage and optimize inventory levels for retailers and warehouses, ensuring timely and accurate stock replenishment.
- Implemented analytical skills to troubleshoot and resolve urgent operational issues, using knowledge databases and ERP systems to identify root causes and implement effective solutions.
- Worked closely with Ace buyers, store managers, and warehouse teams to ensure alignment on inventory needs and provided data-driven recommendations for stock management and order optimization.
