## Professional Experience

### Willis Towers Watson | *Business Analyst*

2018 - 2025

- Directed U.S. and international teams in delivering pension administration projects, applying business analysis principles to enhance service quality and client satisfaction.
- Developed and refined internal process documentation while providing training on complex operational procedures, resulting in improved team efficiency and accuracy.
- Executed detailed review and submission of trust reconciliation reports and managed overpayment recoupment tracking to ensure financial accuracy and compliance.
- Collaborated cross-functionally to analyze workflows, identify service gaps, and implement process improvements that streamlined operations and increased client satisfaction.
- Fostered strong relationships with internal teams, external vendors, and clients through professional communication and stakeholder management.
- Supported onboarding and compliance tasks related to benefit plans and employee data, ensuring accurate and timely processing.
- Authored documentation and implemented process enhancements that directly improved employee support and operational workflows.

### Robert Half Staffing | *Contract Administrative Assistant*

2016 - 2018

- Delivered front office support for short-term contracts, optimizing document management and communication processes using Microsoft Office Suite and Google Workspace.
- Coordinated meetings, managed expense tracking, and organized files while supporting leadership scheduling, thereby improving team productivity.
- Administered inventory management and billing processes through rigorous data analysis and effective communication with internal teams, leveraging tools like Microsoft Office Suite and Slack to drive operational efficiency.

### MasTec Advanced Technologies | *Administrative Assistant (Contract)*

2016 - 2016

- Supported implementation of electronic onboarding and technician scheduling for large-scale systems migration.
- Served as point of contact for all candidate onboarding questions and status updates.
- Developed and implemented offboarding improvements across departments, streamlining processes and ensuring compliance
- Coordinated travel and submitted expense reports for department leadership, optimizing travel logistics and financial tracking
- Collected and submitted sensitive employee data for onboarding and login creation.
- Interfaced with job candidates and employees using Google Workspace to streamline onboarding processes, enhancing communication and reducing onboarding time

### Drain Wizard, LLC. | *Office Manager / Dispatcher*

2014 - 2016

- Managed all office functions including dispatch, HR, payroll support, inventory, and customer service, resulting in streamlined operations and improved team efficiency
- Scheduled technicians, reconciled accounts, processed invoices, and performed follow-ups with customers, enhancing service delivery and customer satisfaction
- Interviewed and onboarded technicians, managed personnel files, and coordinated new hire training, leading to a well-prepared and efficient workforce
- Handled recruiting, onboarding, and supply logistics for field service employees, ensuring timely staffing and resource availability
- Supported employee communications and internal training documentation, fostering a collaborative work environment and enhancing team knowledge
