SUMMARY

Master of Public Policy candidate at the University of Chicago with a background in Finance and Business Analytics. Proven track record in financial modeling, variance analysis, and process automation across large-scale data environments. Skilled at transforming complex datasets into actionable insights using SQL, Excel, and Tableau to support budgeting and operational decision-making.

EDUCATION

Harris School of Public Policy, University of Chicago

Chicago, IL

Master of Public Policy *Finance Specialization* | GPA: 3.6/4.0

September 2024 - June 2026

Kelley School of Business, Indiana University of Bloomington

Bloomington, IN

Bachelor's Degrees in Finance and Business Analytics | GPA: 3.748/4.0

August 2020 - May 2024

WORK EXPERIENCE

Entrepreneur Office of Shanghai Branch, CITIC Securities

Shanghai, CN

Investment Analyst Internship

July 2024 - August 2024

- Queried and analyzed portfolio data (returns, asset allocation, transaction activity) across 800+ client accounts using SQL and Excel, delivering the underlying figures for senior consultants' portfolio reviews and rebalancing decisions.
- Built and maintained Tableau dashboards tracking key financial and market KPIs, improving reporting visibility for weekly planning meetings and reducing manual data pulls.
- Conducted equity analysis on 20+ small-cap firms, evaluating profitability metrics, financial statements, financial ratios, valuation multiples, and market trends to provide data-driven investment insights.
- Standardized data-reconciliation templates across multiple datasets, cutting report-preparation time by ~30% and improving accuracy of recurring summary reporting.

Intern of Business Department, China Fortune Securities

Shanghai, CN

Associate Consultant Intern

May 2023 - July 2023

- Reviewed and reconciled financial risk data for 2,000+ client accounts across internal systems to ensure regulatory compliance and data accuracy.
- Conducted financial due diligence on 300+ prospective clients, analyzing financial statements and risk indicators to support onboarding and reporting decisions.
- Assisted in preparing client-ready investment materials, presentations, and analytical reports by synthesizing company information, market data, and financial analysis for institutional and individual client.

Suamalie Incorporated

Pago Pago, AS

Finance Associate

January 2021 - June 2021

- Performed monthly actuals vs budget variance analysis to support resource allocation and cost control decisions.
- Reduced operating expenses 8% year-over-year by analyzing the cost structure and identifying procurement inefficiencies.
- Strengthened financial controls and reporting accuracy by supporting bookkeeping, cash tracking, and expense reconciliation.

PROJECT EXPERIENCE

Airbnb Booking Prediction

Bloomington, IN

Group Leader

November 2022 - December 2022

- Cleaned and modeled 2.5M+ booking records on R and Excel to identify key revenue and demand drivers, evaluate performance trends, and support data-driven business insights.
- Built predictive forecasting models using regression trees, random forest, and boosted trees to support demand forecasting, scenario analysis, and data-driven decision-making.

Target Stock Valuation

February 2023 - April 2023

- Built a 10-year pro-forma financial model for Target Corporation, forecasting revenue, expenses, and free cash flow.
- Computed WACC using cost of equity and debt assumptions and performed discounted cash flow (DCF) analysis, indicating the stock was undervalued.
- Conducted sensitivity analysis on key drivers (sales growth, inflation, risk-free rate) to assess valuation outcomes.

SKILLS

Financial: Financial Modeling, Budgeting, Forecasting, Variance Analysis, Scenario Analysis, Data Analysis

Technical: SQL, Excel (advanced formulas, lookups, pivot tables, VBA, dashboards), Tableau, Power BI
