📍 Columbia, MD

SUMMARY

Results-driven Data Analyst with 4+ years of experience turning complex data into actionable insights that drive strategic decisions in healthcare. Skilled in SQL, R, Tableau, Excel, and Python, with a proven record of improving efficiency, enhancing reporting, and supporting evidence-based decision-making. Adept at building dashboards, managing large datasets, and collaborating with cross-functional teams to deliver business impact.

SKILLS

Data Analysis & Visualization: SQL (advanced queries, joins, temp/nested tables), Tableau (data visualization, dashboards), R (dplyr, ggplot2), Python (data wrangling), Excel (pivot tables, VLOOKUP/XLOOKUP)

Statistical Methods: Hypothesis Testing, Regression, ANOVA, Forecasting

Data Management: Data Cleaning, Data Modeling, Quality Assurance, Reporting Automation

Collaboration & Communication: Stakeholder Engagement, Cross-functional teamwork, Training & upskilling teams, Presentation of Insights

EXPERIENCE

Data Analyst

DC Department of Health

📅 07/2022 - Present 📍 Washington, D.C

- Analyze large-scale public health datasets, including disease incidence, vaccination rates, and demographic data, supporting evidence-based policy recommendations that improve public health strategies by 15%
- Design and deploy interactive Tableau dashboards to visualize key health metrics, reducing reporting time by 40% and enhancing decision-making for leadership
- Collaborate with epidemiologists and program managers to develop standardized data collection protocols, increasing dataset accuracy and reliability by 25%
- Prepare and deliver presentations to stakeholders, including city officials and community leaders, translating complex data findings into actionable recommendations that influence citywide initiatives
- Upskill new hires through Tableau training workshops, enhancing department-wide data literacy and reporting capabilities by 30%

Junior Data Analyst

DC Department of Health

📅 07/2021 - 07/2022 📍 Washington, D.C

- Queried and maintained relational databases using SQL to extract and analyze data supporting high-quality business intelligence reports
- Developed Tableau dashboards and reports to monitor operational performance, which were instrumental in identifying inefficiencies and cost-saving opportunities

- Built Pivot Tables and charts in Excel to track KPIs, improving team productivity by 12% through real-time performance monitoring
 - Strengthened data integrity and reliability by detecting and resolving inconsistencies across multiple health datasets, reducing reporting errors by 20%
-

Graduate Assistant - SPSS Instructor

Marshall University

📅 09/2019 - 05/2021 📍 Huntington, West Virginia

- Taught and mentored 100+ undergraduate students in SPSS, simplifying advanced statistical concepts, and earning recognition from faculty for improving engagement and comprehension
- Designed and delivered tutorials and workshops, improving class performance and statistical literacy by 20% on average
- Assisted students with research projects by guiding them in analyzing datasets, interpreting SPSS output, and presenting findings effectively
- Analyzed student performance trends to recommend curriculum improvements, boosting engagement and learning outcomes
- Conducted basic statistical analysis to track attendance and participation, presenting findings in clear, concise reports

EDUCATION

Master of Arts, Mathematics

Marshall University

📅 05/2021 📍 Huntington, West Virginia

Bachelor of Science, Computational and Applied Mathematics

University of Lagos

📅 11/2015 📍 Lagos, Nigeria

CERTIFICATIONS

AWS Certified Cloud Practitioner
