SUMMARY

Technical Product Manager with 4+ years owning healthcare and enterprise SaaS products end to end across the U.S. and India. Translates ambiguous problems into clear roadmaps, rallies cross-functional teams of up to 10, and pairs sharp product judgment with hands-on AI delivery to move real metrics: adoption, retention, and reliability.

TECHNICAL SKILLS

Product Management & Strategy: Product Roadmapping, Product Lifecycle, Agile/Scrum, Backlog Prioritization, PRDs, Stakeholder Management, Requirements Gathering, KPI Trees, Competitive Analysis, GTM Planning

AI/ML & Trust: AI Product Delivery, Model Governance (Shadow Testing, Canary Releases, Guardrails), Feature Flags, Fraud & Risk Scoring, Evaluation Metrics (Precision, Recall, PR-AUC)

Technical & Cloud: AWS (EC2, S3, Lambda, SageMaker), Azure, Docker, Kubernetes, Terraform, REST APIs, Microservices, CI/CD Pipelines

Data & Analytics: SQL, PostgreSQL, MongoDB, Power BI, Tableau, A/B Testing, Experimentation, Product Analytics (Amplitude, Mixpanel)

AI Tools: ChatGPT, Claude, Gemini, Cursor, Lovable, Bolt, v0, Replit, Perplexity, GitHub Copilot, Notion AI, Figma AI, LangChain, LangSmith, Hugging Face, Anthropic & OpenAI APIs, RAG / Vector DBs (Pinecone), LLM Evaluation

Tools: Jira, Confluence, Figma, Postman, Grafana, Miro, Lucidchart, Notion

Certifications: [CSPO](#) | [AWS Certified Cloud Practitioner](#) | [AWS Certified DevOps Engineer](#)

PROFESSIONAL EXPERIENCE

Technical Product Manager | Salesforce Health Cloud | USA

Jun 2025 – Present

- Spearheaded roadmap and strategy for the patient engagement suite, expanding interoperability across major EHR platforms and hospital networks.
- Governed AI feature rollout with staged release gates, shadow testing, and guardrails, evaluating recommendation quality on precision and recall to reduce production incidents by 25%.
- Defined AI safety and trust requirements (PHI access controls, citation-based grounding, audit logging), strengthening reliability and compliance across customer environments.
- Shipped HIPAA-compliant APIs and onboarding flows with engineering and UX, cutting integration time by 28%.
- Drove Einstein-powered personalization, surfacing next-best-action recommendations from unified Patient 360 data and lifting engagement and retention by 35%.
- Established product KPIs and adoption dashboards, using activation and retention signals to reprioritize the backlog and raise feature adoption by 22%.

Product Owner | Webangel Technologies | India

Jun 2021 – Aug 2023

- Owned the end-to-end roadmap for patient engagement platforms adopted by 10,000+ healthcare professionals.
- Authored user stories and acceptance criteria and facilitated Agile ceremonies for a 10-person cross-functional team, improving on-time sprint delivery by 30%.
- Launched subscription analytics dashboards and doctor-patient communication modules, increasing platform engagement by 25% and cutting manual reporting effort by 40%.
- Introduced a patient risk-scoring view that ranked high-need patients for proactive outreach, improving care-team response time by 20%.
- Directed modernization of core systems into a microservices architecture, scaling capacity by 45% and reducing downtime.
- Partnered with QA to define release criteria and acceptance testing, lowering post-release defects by 18%.

Associate Product Manager | Webangel Technologies | India

Jul 2020 – Jun 2021

- Drove requirements gathering with senior PMs, converting stakeholder needs into user stories and sprint goals that shortened feature turnaround.
- Partnered with engineering and design to enhance patient engagement platforms serving 3,000+ users, lifting feature adoption by 15%.
- Scoped backend API enhancements and system integrations that enabled new features and improved scalability.
- Analyzed user feedback and usage data across 500+ sessions to refine features and dashboards for stronger clinical decision support.

EDUCATION

Master of Computer Science | DePaul University, Chicago, IL

Bachelor of Technology, Computer Applications | Guru Gobind Singh Indraprastha University, India
