Profile

Franchise manager with 12+ years of experience in the customer service and food industry, known for enhancing team efficiency and fostering positive work environments. Skilled in inventory control, time management, and problem-solving, with a proven track record of increasing sales and customer satisfaction. I am passionate about community engagement and eager to bring creativity and innovation to new opportunities.

- Cellebrite
- Employee Collaboration
- Research
- Forensic Acquisition and Analysis
- Autopsy
- CTF Events
- Communication
- Python Programming
- Microsoft Office
- Digital Investigation and Evidence Collection
- Wireshark

Projects

- 2025 **Capstone Project and Stalkerware**
Continued work on stalkerware by researching how it affects maintaining power and control over a victim, the relationship the software has with perpetrators and victims, what vulnerabilities, points of access, and assets are compromised, and what current mitigation techniques are in place. Formulated training programs for law enforcement officers and survivors of technology-facilitated intimate partner violence to raise awareness and improve current mitigation techniques.
- 2023 **Physical Security Assessment of St. John's UCC**
Worked with St. John's United Church of Christ and the non-profit Battleborne to come up with physical solutions to keep both areas safe and secure from physical threats and risks. This was achieved through risk identification, annual loss expectancies, and recommended controls that were cost-effective and practical for both facilities.
- 2023 **IT Security and Stalkerware**
Discovered how stalkerware negatively affects domestic violence incidents and the current state of its use in intimate relationships. Implemented Cerberus to stalk myself for a week to improve my understanding on how perpetrators use technological programs to abuse targeted devices and victims.

Education

- 08/2021 – 05/2025 **DeSales University** Center Valley
Master of Science in Cyber Security with a concentration in Digital Forensics
