

Ayden Sauvageau

Data and Operations Analyst

Brookfield, CT | (203) 516-8890 | Ayden.Sauvageau@gmail.com

Objective

Curious and results-driven college student with hands-on experience in statistical analysis, operations and production processes. Highly focused on design and optimization in the context of organizational efficiency. Skilled in workflow optimization, spreadsheet automation, and KPI development. Eager to focus on improving systems to increase efficiency. Exceptional at data assimilation, organization and presentation. Seeking an opportunity where I can develop my experience with data of all sorts.

Work Experience

Noteworthy Chocolates - Bethel, CT | 8/2019-4/2025

Innovative startup utilizing emerging technologies for personalized business and consumer gifting.

Data and Operations Analyst | 2/2023-4/2025

- Co-designed software integration with spreadsheet infrastructure. Automation led to reduction of needed emails from 10-20 per order sheet to 2-3 per order sheet.
- Developed and implemented company wide KPIs leading to ~25% increase in efficiency over the total production process.
- Researched and led AI integration into production processes. Halved the time it took to create custom designs and allowed for greater sample variety for customers.

Data and Production Manager | 8/2021-2/2023

- Designed and administered the company-wide spreadsheet infrastructure which was integrated into the B2B order system for 250+ businesses.
- Led production fulfillment for over \$500k of product over thousands of orders.
- Co-created and optimized company-wide standard operating procedures

Production Assistant | 8/2019-8/2021

- Worked with a team on all stages of customer acquisition, production life cycle and fulfillment.
- Collected, cleaned, and prepared reports on internal and external data. This was used to assess inventory, negotiate b2b transactions and optimize production tasks
