PROFESSIONAL EXPERIENCE

WELLS FARGO | SAN ANTONIO, TX

Vice President of Analytics / Lead Analytics Consultant

09/2022 – Present

- Collaborated in managing a team of 2 Analytic Managers and over 18 Analytic Consultants to help create and manage over 10 monthly reports composed of 50+ different KPI's for our Home Lending, Credit Cards, Auto, Deposit/Banking, Data Operations and Personal Loans teams
- Consistently achieved a 23% monthly reduction in our department's internal audit error rate through meticulous process improvements and rigorous quality control
- Partnered with other analytical teams and departments to design and create a new internal auditing solutions for my department's validation which reduced our audit documentation turnaround time by 15%
- Led the development of 15+ Snowflake-powered reporting solutions, integrating Tableau for visualization and Microsoft SQL Server for data processing to enhance control quality data accuracy by 35%, enabling real-time insights and stronger cross-functional decision-making
- Provided guidance to senior leadership and executives by providing visionary insights, decisive direction, and expert advice on implementing innovative and impactful business solutions aligned with the enterprise's strategic goals such as a new SaaS audit tracking solution and large-scale database managing over 200,000 records of data

OPTUM / UNITED HEALTHCARE | SAN ANTONIO, TX

Business Systems Analyst / Product Owner

04/2021 – 09/2022

- Strategically managed the UHC company intranet site and Large Language Model (LLM), serving a diverse user base of over 300,000 individuals, including employees, contractors, and affiliated staff
- Led the development and implementation of over 10 new features per quarter, overseeing a team of 12 developers and collaborating closely with stakeholders to enhance user experience and engagement
- Implemented strategies to enhance intranet Key Performance Indicators (KPIs), resulting in a 15% increase in user engagement and a 20% reduction in page load times
- Managed multiple high-impact projects that increased department efficiency and cut over 12,000 hours of redundant labor by designing strategic roadmaps, aligning cross-functional teams & senior executives, and leveraging AI technologies to automate manual processes
- Established a comprehensive knowledgebase across the entire organization, spanning 20+ departments and over 200 teams, through meticulous data governance practices, metadata labels, and close collaboration with department executives, architects, and vendors
- Collaborated with acquisition leadership to create an onboarding solution using Quickbase (SaaS tool), migrating & streamlining the onboarding and management of over 50 new contracted organizations

Fraud Analyst / Business Analyst

01/2018 – 04/2021

- Led the tracking and reporting on multiple internal audit KPI's for 5+ internal teams in the Fraud Department using data from various sources, including Compliance rate, Error rate, and Findings resolution rate
- Presented findings and recommendations to management on a weekly basis, using data visuals such as dashboards and graphs to clearly communicate insights created with Power BI and Excel Power Query
- Collaborated with cross-functional Fraud teams to identify areas for Complaint tracking improvement and implement data-driven solutions, resulting in an over 25% improvement average for each quarter
- Completed complex timely reports as related to BSA including Currency Transaction Reports (CTRs), Suspicious Activity Reports (SARs), and other risk management reports for supervisors and managers
- Led a team of 8 employees for multiple fraud prevention projects which played a key role in the retention of over \$315,000 a month while also being responsible for providing training, coaching, and assisting with escalated issues and phone calls

Freight Manager and Broker

08/2010 – 12/2017

- Managed and supervised a team of 6 CDL drivers and ensured vendor SLAs were met while managing negotiations, billing, and payments for over 12+ vendor clients and 10 employees
- Utilized QuickBooks ledgers and daily offsets when dealing with cost assessment of business expenses which included over \$80,000 in monthly revenue
- Led executive-level financial decision-making, using data-driven cash flow analysis to maximize profitability, enforce strict company compliance, and maintain accurate client records
- Coordinated daily delivery schedules based on 12+ different established vendor schedules, peak delivery times, and alternate routes and provided follow up customer support after deliveries and made sure client and employee concerns were promptly addressed
