

Charan Reddy Chintalapuri

+1(210)336-0903 | charanchintalapuri875@gmail.com

Professional Summary

Dynamic and detail-oriented **Java Developer** with over 4+ years of experience specializing in backend development (80%) and frontend technologies (20%). Proficient in designing, developing, and deploying scalable and efficient applications using **Java**, **Spring Framework**, and **Microservices Architecture**. Adept at integrating RESTful APIs, leveraging **AWS** cloud services, and optimizing databases. Proven track record of contributing to innovative projects such as scientific calculators and enterprise-level applications. Skilled in **Agile** methodologies, CI/CD pipelines, and delivering solutions that improve system performance by 30%+. Committed to continuous learning and delivering high-quality code.

Education

Master of Science in Computer Science

Wichita State University, Wichita, KS

August 2022 – May 2024

Bachelor of Technology in Computer Science

Ace Engineering College

July 2017 - May 2021

Relevant Coursework: Advanced Algorithms, Distributed Systems, Cloud Computing

Skills

- **Programming Languages:** Java, Python, C++, JavaScript, SQL
 - **Frameworks:** Spring Boot, Spring Cloud, Hibernate, AngularJS, Node.js, React.
 - **Frontend Technologies:** HTML, CSS, Bootstrap
 - **Cloud Platforms:** AWS (S3, EC2), Azure, PCF
 - **Tools & Technologies:** Docker, Kubernetes, Jenkins, Tomcat 10, Apache Kafka, REST, SOAP, Microservices
 - **Version Control:** Git, GitHub, Bitbucket
 - **Testing Tools:** JUnit, Mockito, SoapUI
 - **Database Management:** MySQL, Mongo DB, Cassandra, Oracle
 - **Development Methodologies:** Agile, SCRUM, Waterfall
 - **Others:** CI/CD Pipelines, IntelliJ IDEA, Eclipse
-

Professional Experience

Java Full Stack Developer

CVS Health, Irving, Texas, USA | April 2023 – Present

- Developed and implemented **Microservices** to enhance system performance by 25%.
- Designed RESTful APIs for seamless integration, leveraging **Spring Boot** and **Java 8**.
- Utilized **Apache Kafka** for event-driven architecture, enabling real-time data streaming.
- Migrated SQL Server data to Cassandra, optimizing data retrieval by 30%.
- Implemented authentication using **OAuth 2.0** to secure RESTful web services.
- Created efficient user interfaces using **Angular 12**, improving user engagement.
- Utilized **Azure Functions** to streamline backend processes.
- Participate in a continuous integration environment to ensure high-quality and efficient software delivery.
- Implemented CI/CD pipelines with **Jenkins** for automated deployments

Java Developer

WAVETRONIC SOLUTIONS, Bangalore, India | May 2020 – June 2022

- Implemented RESTful web services using **Spring Boot** and **Hibernate**, ensuring efficient data handling.
- Designed and deployed Microservices using **Spring Cloud** and **Docker**.
- Developed web pages using **HTML5**, **CSS3**, and **Angular** for enhanced user interfaces.
- Managed and resolved bugs using **JIRA**, ensuring a 15% reduction in production issues.
- Led the migration of monolithic applications to **Microservices** architecture.
- Designed a **Spring Boot** application integrated with **ReactJS**, improving system scalability.

- Authored cloud-native applications using **AWS** services like S3 and DynamoDB.
 - Improved application performance using **Java 8** features like Stream API and Lambda Expressions.
-

Certifications

- **Oracle Certified Associate (OCA) - Java SE Programmer**
 - **AWS Certified Solutions Architect – Associate** (In Progress)
-

Highlights

- Successfully reduced application downtime by 20% by implementing Microservices.
 - Led the migration of monolithic applications to modern **Microservices** architectures.
 - Certified in **OCA**, showcasing proficiency in Java development principles.
-
