SUMMARY

Data-driven professional transitioning from contract analysis and healthcare operations to a data analyst role. Experienced in using data to drive decision-making, optimize processes, and identify opportunities for improvement. Adept in SQL, Power BI, and data analysis, with a proven record of recovering millions in underpayments and providing actionable insights. Seeking to leverage strong analytical and technical skills in a data analyst position to support business intelligence and data-driven strategies.

WORK EXPERIENCE

Contract Analyst

Preferred Medical Marketing Corporation (PMMC)

November 2022 - current / Charlotte, NC

- Measure and manage payer performance, ensuring accountability against contractual agreements with a remarkable 95% accuracy, boosting operational effectiveness and enhancing financial outcomes.
- Conduct trend analyses using the contractual terms in comparison with payment data resulting in the recovery of \$50M+ in underpayments.
- Streamlined the analysis, organization, and retention of executed contracts in a secure database using SQL and Power BI, leading to faster retrieval times and enhanced data-driven insights for enhanced decision-making.
- Analyze hospital payer contracts, identifying an average of \$250K+ in potential annual reimbursement improvements across Medicare, Medicaid, and commercial payers.

Pre-Service Specialist

Atrium Health

September 2019 - November 2022 / Charlotte, NC

- Promoted to Team Lead in March 2022, overseeing a team of 18 members to exceed project goals and enhance collaboration for optimal performance.
- Trained 5+ new staff members in efficient filing systems, professional phone etiquette, and essential office duties, leading to a 20% reduction in onboarding time and a noticeable improvement in team communication and productivity.
- Managed scheduling and secured coverage for short shifts to maintain operational efficiency, ensuring smooth service during peak hours.
- Ensured strict compliance with HIPAA regulations, fostering a secure environment for patient information and enhancing trust among patients.

Patient Access Representative

NYU Winthrop University Hospital

June 2015 - May 2019 / Mineola, NY

- Streamlined the verification process for insurance eligibility by assessing 50+ patients daily, enhancing data accuracy and ensuring seamless patient intake.
- Ensured patient confidentiality while adhering to document protocols, significantly reducing the risk of data breaches and enhancing overall data security.
- Facilitated seamless patient interactions by managing a high volume of incoming calls, optimizing appointment scheduling, and maintaining organized medical records.

Representative

Marist Poll

September 2011 - May 2013 / Poughkeepsie, NY

- Captured precise responses from 50+ interviewees, enhancing data integrity and supporting actionable insights for future projects.
- Engaged over 100 survey participants by confidently delivering questions over the phone, resulting in a 15% increase in response rates.
