EDUCATION

Indiana University - Bloomington, IN, USA

Masters in Data Science

Aug 2023 - May 2025

GPA: 3.87/4.00

University of Mumbai, Maharashtra, INDIA

Bachelor of Technology in Computer Engineering

Jul 2019 - May 2023

GPA: 4.00/4.00

TECHNICAL SKILLS

Languages & Automation: Python, JavaScript, RESTful APIs, Django, automated scripting, CI/CD, Git

Data Analysis & Reporting: Power BI, Tableau, R, MS Excel, PowerPoint

SQL & Databases: SQL (query optimization, indexing), MySQL, PostgreSQL, MongoDB, Snowflake, NoSQL

Data Pipelines & Cloud: ETL/ELT pipelines, data ingestion, AWS (Lambda, S3, EMR, Step Functions), Kafka

WORK EXPERIENCE

Data Analyst

Indiana University, IN, USA

Jan 2025 - May 2025

- Developed **Python** ETL pipelines automating ingestion of 180K+ grant records from 4 federal RESTful APIs
- Executed **data validation** and **data quality assessments** using Python scripts, achieving 96% entity-resolution accuracy
- Generated stakeholder **reports** translating **analytical findings** into insightful R visualizations across \$2.1B in grants
- Consulted with data providers on **data integrity** requirements, improving ingestion quality and reducing errors by 40%

Data Engineer

Indiana University, IN, USA

May 2024 - Dec 2024

- Developed **NLP data pipelines** via **Python**, OCR, and **RESTful APIs** across a 5K+ document corpus
- Engineered **feature extraction** workflows using **SpaCy**, **TF-IDF**, and **Scikit-Learn**, enabling article classification at scale
- Built **similarity graphs** with NetworkX and **data modeling** via NMF and LSA, achieving **thematic clustering** purity of 0.92
- Strengthened **data validation** and **data integrity** with Sentence-BERT **retrieval** pipelines, improving accuracy 4x at scale

Software Engineering Intern

Arviti Global, Maharashtra, INDIA

Mar 2022 - Apr 2023

- Led a team, owning data pipeline delivery spanning client **data ingestion** through front-end **analytical** dashboards
- Architected event-streaming ETL pipelines using Kafka and AWS Kinesis, processing 2K+ events/s with full **data integrity**
- Developed RESTful API backends in **Python** with optimized **SQL** queries, enabling reliable **database management** at scale
- Introduced **automated data validation** standards in **Git** code reviews, cutting pipeline defects by 30% across the team
- Reduced infrastructure costs 22% via compute tuning and tiered AWS S3 storage, improving pipeline reliability by 14%

Fullstack Developing Intern

Image Online, Maharashtra, INDIA

Oct 2021 - Jan 2022

- Built ETL pipelines with Django RESTful APIs managing real-time client data ingestion into normalized **SQL databases**
- Designed **SQL** schemas using dimensional modeling in **MySQL**, reducing cross-platform data redundancy by 40%
- Migrated 50K+ financial records with 100% **data integrity** using automated **Python data validation** and quality checks
- Optimized **SQL** query performance 25% through advanced indexing, accelerating **report generation** and reducing latency

PROJECTS

Retail Sales Performance & Profitability Dashboard | [Link](#)

- Optimized retail strategy by developing interactive Tableau dashboards to analyze \$2.3M in sales and 12% profit margins
- Integrated 4 CSV datasets to identify high-performing categories and regional trends, enabling data-driven decisions on shipping modes and customer segmentation

Fraud Detection & Transaction Analytics Dashboard

- Engineered a multi-page Power BI dashboard analyzing 50K+ transactions across 10 U.S. cities, devices, and age groups
- Integrated Python preprocessing with DAX measures to uncover approval/denial trends, fraud risk factors, and temporal anomalies

Virtual Tissue Knowledge-base

- Delivered a Neo4j knowledge graph housing 275K+ nodes and 1M+ relationships, coupled with Chroma vector database
- Engineered AI-driven RAG pipelines using LangChain and OpenAI LLM for self-reliant document processing, metadata extraction, and semantic chunking, improving information retrieval accuracy by 40%

EXTRACURRICULAR ACTIVITIES

- Chairperson** in IETE-ISF KJSIT - Jan 2022 - Jan 2023
- Chieftain** in Developer Student Club - Sep 2021 - Aug 2022
