Education

WESTERN GOVERNORS UNIVERSITY

M.S. Software

Engineering — AI Engineering

2025 – Expected 2027

SUNY ALBANY

Bachelors Computer

Science Minor

Business

Management

Graduated 2023

Skills

Swift, UIKit
Swift Concurrency
NetworkExtension
(VPN)
CryptoKit
Firebase-Auth
Firestore
WireGuard
Networking
PowerShell
Automation
Git, Xcode, Jira

Experience

SimplifiedAuthKit – iOS Authentication SDK

Built a unified Apple/Google Sign-In SDK with secure nonce generation, SHA-256 hashing, FirebaseAuth integration, and adaptive UIKit components. Packaged via SPM with a complete demo app.

Sky Link VPN – WireGuard iOS Client

Implemented a full NetworkExtension-based WireGuard VPN client with async/await networking, dynamic IP assignment, Firebase Functions, custom tunnel configuration, bandwidth UI, and App Group persistence.

Sky Link Backend Automation Toolkit

Developed a PowerShell-based automation suite for generating WireGuard tunnels, assigning subnets/ports, configuring NAT + firewall rules, and managing server-side VPN services.

Operations Manager — Amazon

Jan 2023 - Present

Led operations handling 20K+ packages per day; managed 50–100 associates; improved workflow efficiency, safety compliance, and operational reliability.

iOS Developer — Canaveri

Sept 2021– Dec 2024

Rebuilt a web POS system into a native iPad app using Swift & UIKit. Contributed to sprint planning, UI architecture, and debugging for smoother user flows and feature reliability.

Substitute Teacher — School Professionals

Dec 2022 – Nov 2023

Managed K–12 classrooms, delivered lesson plans, and maintained structured learning environments.
