PERSONAL STATEMENT

Software Engineer with hands-on experience in full-stack development, API design, and building scalable web applications. Proficient in C#, TypeScript, and React.JS with a solid foundation in Agile development practices. Strong collaborator focused on delivering efficient, maintainable code, and continuously expanding technical expertise. Passionate about enhancing user experiences and contributing to impactful software solutions.

SKILLS

- Programming Languages: C#, Java, Python, JavaScript, TypeScript
- Frontend Development: React.js, MUI Components, CSS, HTML, AngularJS, Vue.js, Next.js
- Backend Development & Databases: ASP.NET, SQL Scripting, Database Management, RESTful API Development, Docker
- Tools & Technologies: PowerShell Scripting, Microsoft Excel, Microsoft Azure, Figma, Git
- Soft Skills: Strong leadership, communication, and collaboration skills

WORK EXPERIENCE

Associate Software Engineer - Double Line, Inc. *Austin, TX 08/2023 - 12/2024*

- Developed and maintained scalable web applications for data entry
- Collaborated with cross-functional teams to implement features and improve user experience, increasing client satisfaction
- Participated in code reviews and contributed to enhancing coding standards, reducing the number of bugs making it through to production

Software Engineering Intern - Double Line, Inc. *Austin, TX 06/2022 - 08/2022*

- Gained hands-on experience with Agile software development practices and contributed to sprint planning and development tasks.
- Developed and reviewed code for a Docker extension React application, optimizing its functionality for deployment in production.
- Successfully migrated the company wiki from Confluence to MediaWiki, streamlining internal documentation management.

PROJECTS

MODESE Data Validation Portal - Double Line, Inc. *08/2023 - 09/2024*

- Developed a data entry portal using .NET and React.js with TypeScript and MUI, improving data accuracy and workflow efficiency.
- Designed and implemented reusable components for scalability and created API controllers and services for seamless interaction with the database.
- Participated in Agile sprint cycles, regularly collaborating with team members during standups and sprint reviews to ensure smooth project delivery.

Docker Extension Application - Double Line, Inc. *06/2022 - 08/2022*

- Developed a React.js application to deploy and manage Microsoft SQL Server in Docker containers, improving deployment speed and server management.
- Optimized backend functionality using Docker commands for container orchestration and contributed to frontend code reviews.

EDUCATION

Bachelor of Science in Electrical Engineering with a focus in Software Engineering
The University of Texas at Austin
Graduated August 2023
