

Evan Ross

Data Analyst

✉ eviosofario@gmail.com ☎ 7328506773 📍 Brick, NJ 🔗 linkedin 🐙 github

Technical Skills

Data Analysis

- SQL, Tableau, Data Cleaning/Manipulation, Regression, Classification

Programming

- Python, Pandas, Numpy, Matplotlib, Seaborn, AWS, PySpark

Machine Learning

- SciKit Learn, UnSupervised/Supervised Machine Learning, Convolutional Neural Networks, Natural Language Processing
- Recommender Systems, Keras, Pytorch, Tensorflow

Professional Experience

Jenkinson's Boardwalk, Lot Manager

06/2016 – present

Point Pleasant, United States

- Managed financial transactions by collecting, tracking, and accurately recording monetary tallies to ensure transparency and accountability. (Roughly \$10 Million over summer months.)
- Oversaw valet operations for 4+ parking lots, including planning and directing duties to ensure efficient and seamless service.

Projects

Astronomy Neural Network Classification ☑

- Matplotlib data exploring using correlation matrices and pandas encoding methods for the used complex dataset.
- Self-built neural network modelling, Keras and Tensorflow techniques. Extensive model depth and width experimenting for a 94% AUC score.

Plane Ticket Price Regression ☑

- Data preparation/cleaning and exploration. Matplotlib, pandas and numpy functions. XGBoost modelling and feature engineering for a low root mean squared error.

Moon Phase Image Recognition ☑

- Developed a Convolutional Neural Network (CNN) for classifying the phase of the moon from images captured using a personal telescope.
- Implemented data augmentation techniques to enhance model robustness and improve accuracy across various lunar phases.
- Achieved high classification performance by training the model on a custom dataset of original moon images.

Education

Data Science Certificate, LearningFuze

03/2024 – present | Irvine, United States

- Participated in hundreds of hours of hands on data analytics learning lead by a team of professionals that specialize in the mentorship and practice of the field.

Associate's Degree in Science (Business Focus), Ocean County College

09/2021 – 05/2024 | Toms River, United States

- Consisted and current GPA of 3.5
- Developed life long skills in the understanding of businesses and the sciences involved in running them.
