

PRATIK DARADE

Chicago, IL | +1 872-279-4385 | pratikdarade26@gmail.com | [LinkedIn](#) | [GitHub](#)

SKILLS

- **Data Analysis & BI:** SQL (query optimization, joins, subqueries), Python (Pandas, NumPy, scikit-learn), Power BI, Tableau, Amazon QuickSight, Excel
- **Cloud & Data Platforms:** AWS (S3, Athena), Informatica PowerCenter (ETL), Data Pipelines, Data Modeling
- **Product & Analytics:** A/B Testing, Funnel Analysis, Cohort Analysis, PRD Writing, Backlog Prioritization, Agile, User Research
- **Tools:** Jira, Confluence, Microsoft Project

WORK EXPERIENCE

Product & Data Analyst

Saayam For All

Jul 2025 – Jun 2026

- Owned end-to-end product analytics for the Healthcare & Wellness category, translating complex datasets into PRDs, acceptance criteria, and feature specs across 5 service areas directly influencing product roadmap decisions.
- Increased feature adoption by 15% by designing and executing A/B tests, conducting user interviews, and using SQL/Python to analyze engagement metrics and prioritize backlog items based on statistical significance.
- Improved user engagement by 20% within 2 months by engineering Python (Pandas) scripts to analyze session-level behavioral data, identifying key funnel drop-offs and informing UX design changes.
- Collaborated cross-functionally with engineering, design, and operations to ensure data accuracy and integrity across healthcare assistance workflows, supporting delivery of high-impact social service features.

Data Analyst

Chicago Transit Authority

May 2024 - Apr 2025

- Designed and deployed a Power BI executive dashboard visualizing safety and maintenance KPIs, automating report distribution to stakeholders, reducing manual reporting time by 80% and contributing to \$30K in annual maintenance cost savings.
- Built automated Python (Pandas, NumPy) anomaly detection pipeline on fleet operations data, surfacing 10+ recurring failure patterns responsible for 15% of daily delays and enabling maintenance scheduling.
- Cleansed, validated, and standardized 100K+ records in Excel using PivotTables and data integrity checks, establishing a reliable data foundation for executive reporting workflows.
- Partnered with cross-functional stakeholders to investigate and resolve data inconsistencies in daily reporting pipelines, improving reporting accuracy and reducing turnaround time.

Programmer Analyst

Cognizant Technology Solutions

Nov 2021 - Jul 2023

- Engineered and optimized ETL pipelines migrating 500K+ financial records for an insurance client using Informatica PowerCenter and advanced SQL, ensuring data quality, governance compliance, and zero-defect delivery.
- Improved data quality by 25% across 40K records by implementing Python (Pandas) scripts for large-scale cleansing, transformation, and normalization, reducing downstream data errors.
- Enhanced database query performance through advanced SQL optimization (joins, subqueries, indexing), supporting data normalization and reducing report generation time.
- Increased operational efficiency by 30% and cut project completion time by 20% by collaborating with cross-functional teams to analyze system performance, troubleshooting pipeline failures, and automating reporting workflows.

PROJECTS

Health Insights: Integrating Data Mining and Machine Learning using Python

- Led full data lifecycle: cleaning, profiling, EDA, and feature engineering ensuring data integrity across a complex multi-variable dataset.
- Built classification and clustering ML models (scikit-learn) on 100K+ healthcare records to predict smoking and drinking behaviors, supporting data-driven healthcare decision-making.

Airline Passenger Satisfaction Data Analysis using R

- Conducted statistical analysis (hypothesis testing, t-tests, regression) on 26K observations in R, generating stakeholder-ready reports and dashboards with actionable service improvement insights.

IIT Merchandise Inventory Management System using SQL

- Designed normalized relational database schema in Oracle SQL; developed optimized queries to analyze inventory trends and support e-commerce reporting and decision-making.

EDUCATION

Illinois Institute of Technology, Chicago, USA

Aug 2023 - May 2025

Master of Science in Information Technology & Management, Specialization - Data Analytics and Management

University of Mumbai

Aug 2017 - Jun 2021

Bachelor of Engineering in Electronics and Telecommunication
