SUMMARY

Experienced Business Intelligence Engineer with a strong background in SQL, data visualization using Tableau, and ETL pipeline development. Proven ability to handle large-scale complex datasets and deliver actionable insights. Skilled in Python, R, and AWS, with a focus on improving data accessibility and quality.

EXPERIENCE

*USDA Forest Service, **Project Development Manager – Sponsored Project***
Jan 2025 - Mar 2025

- Developed a ChatGPT-trained model using a corpus of existing Smoke Outlooks and translations, improving translation accuracy.
- Designed a user interface for professional translators, reducing translation time by 75% while maintaining high-quality translations.
- Established a scalable translation approach to support additional languages beyond Spanish, enhancing the system's adaptability and efficiency.

*Washington School Counselor's Association, **Business Intelligence Engineer***
Jul 2024 - Sep 2024

- Leveraged historical data to provide strategic insights, improving Washington School Counselors' advocacy efforts, enhancing data-driven decision making.
- Produced actionable data visualizations on legislative impact across school districts, increasing awareness and engagement by 100%.
- Presented data insights to board members, shaping WSCA's strategic direction, resulting in a major improvement in policy advocacy.

*Prodx, **Full Stack Software Engineer***
May 2021 - Jan 2022

- Developed APIs supporting e-commerce transactions for a grocery platform, serving over 1 million users, enhancing transaction efficiency.
- Led the development of a proprietary ad platform, improving data quality and accessibility.
- Conducted code reviews for peer teams, ensuring code quality and adherence to best practices.
