Experience

Golchha Group
Business Analyst

July 2021 – December 2023
Kathmandu, Nepal

- Collaborated with stakeholders, leadership, and project managers in planning meetings to define project goals, scope, risks, timeline, and target user profiles.
- Supported leadership in developing essential project documentation, including project charters, roadmaps, and gap analyses to establish clear project objectives and strategies
- Collected comprehensive functional and non-functional requirements through stakeholder collaboration.
- Created detailed process flows, mockups, and requirement documentation.
- Organized requirement documents within Jira and Confluence, ensuring thorough review and formal approval from stakeholder, subject matter experts, and end users.
- Communicated approved requirements effectively to development and testing teams, ensuring alignment with project goals and readiness criteria (Definition of Ready).
- Monitored alignment between developed features and requirement documents in collaboration with testing teams to validate functionality.
- Assisted in deployment preparation by delivering client presentations and system demonstrations, emphasizing key functionalities and business value.
- Worked with the training team to create user manuals and training materials to facilitate efficient end-user on-boarding and system adoption.
- Acted as the primary contact for escalated user issues and feedback post-deployment, working with support teams to address critical concerns.
- Facilitated change requests, defect tracking, and new requirements gathering, re-initiating the requirements cycle to adapt to evolving user and business needs.

Mangalam Group
Human Resources Manager

May 2017 – June 2021
Rupandehi, Nepal

- Handled employee recruitment, and interview processes.
- Managed full-cycle human resource operational activities to maximize employee performance.
- Managed employee relations through coordination with involved parties to ensure a fair resolution.
- Implemented organizational change initiatives effectively while minimizing disruption in operations.

Projects

RIGO Human Resource Management System | Employee Dashboard

- Led the successful implementation of RIGO HRMS (Human Resource Management System) to automate and streamline HR functions, including attendance tracking, leave management, payroll processing, and employee self-service requests. Ensured system adoption by collaborating with stakeholders, facilitating training sessions, and optimizing workflows for efficiency and transparency.

Contribution based Social Security Fund, Nepal | Contributor portal enhancement

- Collaborated on the enhancement of the Social Security Fund (SSF) Contributor Portal, a platform designed to provide contributors with seamless access to their social security information.
- The project aimed to improve user experience by integrating features such as dashboard overviews, profile management, KYC updates, claim applications, and comprehensive reporting tools.

Health Insurance Enrollment System Development | SHIKHAR Insurance Company Ltd.

- Led the development of an online Health Insurance Enrollment System for SHIKHAR Insurance's health campaign, aiming to provide hassle-free and affordable health insurance solutions for families in Nepal. The system facilitated user-friendly online enrollment, premium calculations, and policy management, enhancing accessibility and efficiency in the insurance enrollment process.

Key Achievements

- Successfully implemented RIGO HRMS, reducing manual HR processes by 40 percent and improving operational efficiency.
- Enhanced the SSF Contributor Portal, resulting in a 25 percent increase in user engagement and satisfaction.
- Delivered the Health Insurance Enrollment System on time, enabling more than 600 families to enroll in health insurance seamlessly.

Certification

Business Analyst with Agile Scrum

August 2024 – January 2025

People and Tech Institute of Information Technology

- Completed the 162 hours curriculum of study with cumulative GPA of 3.4
