

Hari Naidu | Business Analyst

PA, USA | +1 (570)-815-7803 | harinaidumanneपुरi90@gmail.com | [LinkedIn](#)

SUMMARY

Business Analyst with 4+ years of experience in requirement analysis, impact assessment, and claims auditing across healthcare and finance domains. Skilled in gathering and documenting requirements (**BRD, FRD, SRS**), creating workflow diagrams, and supporting **UAT** and defect triage to ensure smooth project delivery. Proficient in **SQL, Python, Power BI, and Tableau** for data analysis, **KPI** tracking, and predictive insights. Experienced in **JIRA**, Confluence, Microsoft Visio, and Figma for project tracking, sprint planning, and stakeholder communication. Adept at coordinating cross-functional teams, managing project schedules, and preparing status reports for leadership. Well-versed in **Agile, Scrum**, and Waterfall methodologies, with a strong focus on process improvement, cost-benefit analysis, risk evaluation, and ensuring on-time, high-quality project outcomes.

SKILLS

Data Analysis & Reporting: Requirement Analysis, Impact Assessment, Claims Auditing, SLA Monitoring, KPI Tracking, Anomaly Detection, Forecast Reviews, Performance Metrics, Data Insights, Statistical Analysis, Predictive Analytics, Cost/Benefit Analysis, Process Improvement, Operations Research, GAP Analysis, Risk Analysis, SWOT Analysis

Visualization & Analytics Tools: Tableau, Power BI, Microsoft Excel, Google Sheets, Apple Numbers, Oracle BI, SharePoint, Microsoft Visio, UAT Dashboards, Figma, CRM Platforms

Project Management & Collaboration Tools: MS Project, MS SharePoint, JIRA, Confluence, Rational ClearQuest, HP Quality Center, RTM, JAD, ServiceNow

Programming & Data Handling: Python, Pandas, NumPy, MATLAB, MySQL, SQL, R, Git, EMR Systems

Documentation & Process Mapping: BRD, FRD, SRS, Traceability Matrix, Workflow Diagrams, Wireframes, Change Request Logs, Use Cases, User Stories, Functional Documentation, Process Analysis

Testing & Issue Tracking: Defect Triage, UAT Support, Data Validation, Root Cause Identification, Ticket Resolution Analysis, System Behavior Monitoring, Testing Documentation

Soft Skills: Time Management, Leadership, Problem Solving, Negotiation, Decision Making, Documentation & Presentation, Verbal Communication, Stakeholder Management, Cross-Functional Coordination

Methodologies & Domain Knowledge: SDLC, Agile, Scrum, Waterfall, Business Analytics, Customer Journey Analysis, Healthcare Claims Processing, Pharmacy Workflow, Medicaid Policy, Digital Payments Lifecycle, Transaction Disputes

PROFESSIONAL EXPERIENCE

Business Analyst | Allstate | PA, USA Nov 2024 – Present

- Analyzed 3.2M+ insurance claims using **SQL** and anomaly detection techniques to uncover fraud patterns, reducing false positives by 21% and improving fraud detection workflows.
- Designed interactive **Power BI** dashboards with **DAX** measures to monitor adjuster productivity, SLA compliance, and claim backlogs, enabling 5 regional teams to prioritize aging claims and maintain audit readiness.
- Authored **BRD**, **FRD**, and **SRS** documentation in Confluence for policy renewal workflows, ensuring requirement traceability and minimizing post-release production defects.
- Automated KPI and compliance reporting through **SQL** queries, Excel macros, and SharePoint integration, improving quarterly audit efficiency by 40% and enhancing compliance team readiness.
- Coordinated **UAT** for premium adjustment module, creating test cases, executing 280+ scenarios, and logging results in JIRA, ensuring smooth system integration with Allstate’s adjudication engine.
- Conducted root cause analysis of digital dispute trends using Excel pivoting, SQL log analysis, and **workflow** mapping, recommending fixes that reduced escalation volume by 13% in customer service.

Business Analyst | Hexaware Technologies | India Dec 2020 – Jul 2023

- Audited 450,000+ Medicaid claims using SQL-driven rules, boosting rejection prediction accuracy by 28% and preventing invalid submissions before system-level validation failures.
- Created **BRD** and **FRD** documentation for eligibility workflows, ensuring zero QA **rework** and smooth requirement handoffs across development, business, and QA teams.
- Built Tableau dashboards for provider SLA tracking and automated refreshes via a **Python + ServiceNow** API script, reducing resolution delays by 31% and improving reporting accuracy.
- Coordinated project schedules, sprint ceremonies, and **UAT cycles**, tracking 280+ test scenarios in JIRA and ensuring timely milestone delivery.
- Partnered with IT/**data** teams to integrate **Neo4j** graph databases, optimizing queries, uncovering provider-claim relationships, and accelerating workflow efficiency.
- Designed **Visio** and **Figma** workflow diagrams for sprint planning and stakeholder demos, improving cross-team communication and transparency.

Junior Business Analyst | Fusion Software Technologies | India Jan 2019 – Nov 2020

- Collected business requirements for **financial reporting tools**, translating client feedback into documented use cases used across three projects during sprint reviews.
- Supported **BRD** creation and wireframe planning for transaction modules, simplifying monthly accounting processes through automation of reconciliation steps.
- Used **SQL** and **Excel** to validate financial datasets, identifying reporting errors and reducing inconsistencies by 22 percent across internal dashboards.
- Mapped As-Is and To-Be healthcare **workflows**, identifying inefficiencies and recommending process **optimizations**, improving operational efficiency and patient care coordination.
- Designed and implemented a **data integration** strategy for seamless connection of **EHR** and claims data using **HL7** and **FHIR** standards, improving real-time data access and integration.
- Developed interactive **Tableau** and **Power BI** dashboards to monitor and visualize **KPIs** such as readmission rates and care gaps, providing actionable insights for stakeholders.
- Supported **CRM** implementation through field mapping and form **validation** testing, improving data quality across customer interaction touchpoints.
- Participated in sprint planning and backlog grooming meetings, providing insights from client calls and aligning team priorities with feedback loops.

EDUCATION

- Master of Science in Business Analytics (MSBA)** — University of Scranton, Scranton, PA May 2025
- Bachelor of Business Administration (BBA)** — Andhra University, Andhra Pradesh, India May 2019

PROJECT

Customer Segmentation Analysis Role: Lead Analyst

Technologies Used: Python, SQL, Tableau

Performed in-depth customer segmentation using clustering techniques (K-Means, DBSCAN) and RFM analysis to identify high-value customer groups and behaviour patterns.

Developed personalized marketing strategies by leveraging predictive analytics and customer purchase history, resulting in higher engagement and increased conversion rates.

Increased customer retention rates by 15% by implementing data-driven campaign optimizations, leading to improved customer lifetime value (CLV) and reduced churn.
