

# Harish Kumar B

## Data Analyst

(972) 654-5170 | [harishkumarhr2011@gmail.com](mailto:harishkumarhr2011@gmail.com) | VA, 20151 | [LinkedIn](#)

## SUMMARY

---

Data Analyst with 3+ years of experience in managing data and analyzing data to deliver fruitful insights to assist in decision-making. Experience with visualization tools like Power BI and Tableau, along with databases like MySQL, SQL Server, Mongo DB, and Oracle. Managed large datasets and gained experience in Hadoop, Apache, and Google Analytics and wrote queries in SQL for an average drop in the data extraction time.

## SKILLS

---

**Methodology:** SDLC, Agile, Waterfall

**Languages:** SQL, Python, R

**Documentation:** FRD, BRD, SRS

**IDEs:** Visual Studio Code, PyCharm

**Packages:** NumPy, Pandas, Matplotlib, Scipy, ggplot2

**Visualization Tools:** Tableau, Power BI, MS Excel

**Databases:** MySQL, SQL Server, Oracle, Mongo DB

**ETL & Other Tools:** Hadoop, SSIS, Talend, Apache NiFi, SAP, SAS, CRM, Salesforce, Google Analytics

**Operating System:** Windows, Linux

## EXPERIENCE

---

### Data Analyst | Cigna Healthcare Group, USA

March 2024 – Present

- Created data models, queries for forecasting, prepared reports and charts, and dashboards from sources using tools like Tableau.
- Developed a Python script for processing large healthcare data sets and extracting data from different files.
- Implemented customer relationship management data within CRM systems, providing customized solutions to improve customer relations and organize communication processes.
- Analyzed Pandas as API to format data as time series and tabular formats for data manipulation and retrieval, improving data processing efficiency by 30%.
- Developed and managed BRDs and FRDs for Northern Trust's digital projects, ensuring alignment between business needs and system functionalities.
- Established ETL packages to extract data from different sources, clean the data, and load it into SQL Server databases, enhancing data accuracy and reducing processing time by 25%.
- Performed a transactional analysis to categorize users and created different marketing approaches for each group.

### Data Analyst | Streebo Inc, INDIA

April 2020 – July 2022

- Operated in Agile environments, collaborating with cross-functional teams to deliver iterative data analysis solutions and respond to evolving requirements.
- Implemented and optimized SQL queries, stored procedures, and functions to enhance data processing and analysis, thus cutting query time while maintaining data quality and integrity.
- Executed SAP modules, guaranteeing the interconnectivity of departments and fine-tuning the business processes by configuring the system according to organizational needs, increasing the effectiveness of operations.
- Implemented complex methods like Logistic Regression, Decision Trees, and Random Forests to increase the accuracy of the results and enhance the model.
- Instigated SAS analytics for handling large data and used it to enhance decision-making by 30% in the organization.
- Applied ETL processes with SSIS and Talend Open Studio to extract, transform, and load data into databases, cut down data processing time by 40%, and provided technical solutions to business partners. Accomplished intricate SQL queries, stored procedures, and functions for data processing and analysis to meet quality and accuracy standards.
- Integrated Salesforce to manage sales activities and customer interactions and produce detailed reports for evaluation and forecasting.
- Conducted website and app analytics using Google Analytics to improve marketing strategies and user interfaces.
- Established data pipelines and succeeded data flows through SAS Visual Analytics, resulting in an increase in report generation speed.
- Executed MS SQL Server as the primary platform for data storage, transformation, and querying, reducing data processing time and improving overall system performance.

## EDUCATION

---

**Masters in Computer Science**, William Jessup University, San Jose, California

August 2022 – August 2024

**Bachelors in Computer Science and Engineering**, Jawaharlal Nehru Technological University, Hyderabad

April 2017 – April 2021
