

HIMABINDHU PALLERLA
QA Test Analyst
404-644-5971
Hima2491.hb@gmail.com

PROFESSIONAL SUMMARY:

Over 3 years of IT experience as a Senior QA Test Analyst in Software Testing, proficient in Client/Server and Web based applications. Expert in Automation Testing (Selenium WebDriver), BDD Cucumber, API Testing, Mobile Testing, and Manual Testing. Experience in performing clerical and administrative tasks and providing excellent customer support. Proficient in software issues identification and documentation.

- Experience in developing the automation framework for web-based applications using **Selenium - Java** and **Modular driven Framework**.
- Experience in **Java OOPS** concepts such as Encapsulation, Abstraction, Inheritance and Polymorphism and implemented it for Selenium frameworks.
- Experience in Web Services Testing and performed Manual Testing using Postman tool for REST API and automating the same using Rest Assured Framework in TestNG.
- Integrated Selenium with **TestNG** framework for testing strategies such as cross-browser testing, groups, suites using different annotation available according to the requirements.
- Experience in generating TestNG reports using **Test Listeners** and generating HTML reports using **Extent Report**.
- Experience in developing Scenarios, Scenario Outlines and Step definitions using Gherkin in **Cucumber** for Behavior Driven Development (BDD) and Test-Driven Development (TDD).
- Worked on various types of testing like functional testing which includes Smoke/Sanity testing, System testing, Regression testing and API testing.
- Experience working in Agile-Scrum methodology.
- Created Automation framework for Mobile Testing using Appium.
- Used Jira as bug tracking tool.
- Good hands-on experience in SQL, UNIX.

- Used Maven for building WebDriver projects and performed continuous integration of codes and scripts using Jenkins.
- Experience in maintaining Java and Selenium test source code and resources in version control tools such as GitHub.
- Used Docker to build and deploy test applications across different platforms.

TECHNICAL SKILLS

Testing Tools	Web Application: Selenium WebDriver, GRID Webservice: Postman Mobile Testing: Appium
Languages/Scripts	Java, SQL, Shell Scripting
Frameworks	TestNG, Page Object Model (POM), BDD-Cucumber, TDD, Rest Assured
Databases	SQL Server
Version Control Tools	Git
CI/Build Tools	Jenkins, Maven, Docker
Bug Tracking Tools	Jira

Roles and Responsibilities

Web Application Testing (Salesforce):

- Have designed, developed, and enhanced automated test scripts for Selenium using Java.
- Have developed and implemented Data Driven and Keyword Driven automation testing framework with Selenium WebDriver.
- Have worked in Selenium Automation using Selenium, Java, Eclipse and TestNG.
- Ability in developing BDD scripts with Cucumber and writing step definitions for behavior.

API Testing:

- I have designed and developed test scripts using Rest Assured Framework.
- Have done Manual Testing using Postman tool.

Mobile Testing:

- Have written test cases with TestNG framework.
- Have set up mobile testing environment from scratch.
- Have performed testing on iOS and Android devices using simulator and emulator.
- Have performed testing using Appium server.

EDUCATIONAL QUALIFICATION

Course	School/University	Stream
B. E.	JNTU University, Ananatapur,India.	Electronics and Communication
