

MANISH VAMSI KRISHNA YENDETI

Data Analyst | Excel & Power BI | SQL | Marketing & Customer Analytics | Campaign Performance Reporting
+1 980-382-9135 | yendetimanish@gmail.com | Charlotte, NC | linkedin.com/in/manish-yendeti-98768a3a8

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with 2+ years of experience pulling and validating customer and marketing data from reporting systems, preparing recurring dashboards and reports using Excel and Power BI, and delivering clear, actionable insights to non-technical business stakeholders. Strong proficiency in Microsoft Excel — including pivot tables, lookups, data validation, and reporting functions — combined with hands-on Power BI dashboard development and good working knowledge of SQL for data extraction, validation, and analysis. Experienced in monitoring campaign performance, identifying reporting gaps and inconsistencies, and maintaining metric definitions and report documentation. Proven ability to collaborate with marketing and business stakeholders to understand reporting requirements and deliver on time. Authorized to work in the U.S. — No sponsorship required.

PROFESSIONAL EXPERIENCE

Data Analyst | Marketing & Business Analytics

2023 - 2024 | Full-time

Jio, India

- Pulled marketing and customer data from internal reporting systems and databases using SQL — validated data accuracy and completeness before distribution to business stakeholders, ensuring reliability of all reporting outputs.
- Prepared recurring weekly and monthly dashboards and reports using Power BI and Excel — including pivot tables, lookups, data validation functions, and KPI reporting — delivering campaign performance insights to 5-10 business stakeholders.
- Monitored campaign performance regularly, identified reporting gaps, inconsistencies, and unexpected trends; escalated findings to senior analysts and partnered with marketing and business teams to resolve discrepancies and improve reporting quality.
- Supported senior analysts with ad-hoc analysis related to customer behavior, marketing performance, and business insights — translating complex data findings into clear, actionable summaries for non-technical stakeholders.
- Collaborated with marketing and business stakeholders to understand reporting requirements and delivery timelines; maintained and updated reporting documentation, metric definitions, and report logic for transparency and reproducibility.
- Supported ETL workflows and data quality validation processes across reporting pipelines; applied Python-based automation to streamline recurring reporting tasks, reducing manual effort and improving delivery accuracy.

Data Analyst Intern

Jan 2023 - Apr 2023 | Internship

Jio, India

- Pulled and validated customer and marketing data from internal databases using SQL and Excel; prepared recurring reports and ad-hoc analyses supporting campaign performance reviews and business decision-making for 5+ stakeholders.
- Built Power BI and Tableau dashboards tracking key marketing and customer KPIs; maintained metric definitions and report documentation ensuring accuracy, consistency, and alignment across business reporting requirements.
- Monitored data for reporting gaps and inconsistencies; collaborated with marketing stakeholders to understand requirements, explain analytical findings clearly, and deliver insights in non-technical, stakeholder-friendly formats.

AI Lab Instructor & ML Systems Developer

2024 - 2025 | Part-time

University of North Carolina at Charlotte

- Maintained and updated data reporting documentation, metric definitions, and analytical workflows; applied Python automation to streamline recurring reporting and data validation processes across ML project pipelines.
- Supported senior data scientists with ad-hoc analysis and reporting; instructed 30+ graduate students on SQL, Excel-based data analysis, Power BI reporting, and data quality validation — demonstrating strong communication skills.

KEY PROJECT | IEEE PUBLISHED RESEARCH

Oral Cancer Detection via Deep Learning

SRM University, 2020 - 2024

Python | SQL | Excel | Power BI-style Reporting | Data Validation | ETL | Campaign-style Benchmarking

- Pulled and validated large clinical datasets, monitored data quality for gaps and inconsistencies, and maintained clear metric definitions and documentation across all analytical and reporting stages of the project.
- Prepared reporting outputs benchmarking 5 model architectures with campaign-style performance tracking; achieved 93.15% accuracy — communicated findings clearly to non-technical audiences and published in IEEE.

TECHNICAL SKILLS

Excel & Reporting: Microsoft Excel (advanced) — pivot tables, VLOOKUP/XLOOKUP, data validation, reporting functions, conditional formatting, automated reporting models

BI & Visualization: Power BI (dashboards, data modeling, recurring & ad hoc reports), Tableau, Matplotlib, Seaborn — campaign performance, KPI reporting, stakeholder dashboards

SQL & Data: SQL — data extraction, validation, analysis, reporting; ETL workflows, data quality validation, customer & marketing data analysis

Marketing Analytics: Campaign Performance Monitoring, Customer Behavior Analysis, Reporting Gaps Identification, Marketing KPI Tracking, Google Analytics (familiar), Salesforce (familiar)

Programming: Python (Pandas, NumPy, Matplotlib, Scikit-learn, PyTorch, TensorFlow) — reporting automation, data analysis, ETL support | R (familiar)

Education: M.S. Data Science — UNC Charlotte (GPA: 3.4/4.0, 2024-2025) | B.Tech CSE — SRM University (CGPA: 8.5/10, 2020-2024)

Certifications: AWS Cloud Fundamentals | Machine Learning — Coursera | Data Science & AI — Innomatics Labs | IEEE-Published (2024) | LeetCode
