

NIKHITHA MANDA
DATA ANALYST

+1 479-685-7702 | nikhitha.manda03@gmail.com | <https://www.linkedin.com/in/nikhithamanda/>

PROFESSIONAL SUMMARY

- Data Analyst with 2+ years of experience transforming large, complex datasets into actionable business insights using SQL, Python, Excel, and Power BI.
- Skilled in writing and optimizing complex SQL queries (joins, CTEs, window functions, stored procedures) across Oracle and SQL Server for datasets exceeding 5M records.
- Experienced in designing interactive Power BI dashboards and reports with DAX, drill-through, and star-schema data models to support KPI tracking and executive reporting.
- Proficient in data cleaning, data profiling, data validation, and ETL automation using Python (Pandas, NumPy), improving data accuracy and reducing manual effort.
- Strong background in exploratory data analysis, trend analysis, root-cause analysis, and A/B testing to identify business opportunities and process gaps.
- Adept at gathering requirements from business stakeholders, defining metrics, and delivering reporting solutions in Agile/Scrum environments.

TECHNICAL SKILLS

Programming & Query: SQL, Python, R

Data Analysis & Manipulation: Pandas, NumPy, SciPy, Data Cleaning, Data Wrangling, Feature Engineering, Exploratory Data Analysis (EDA)

BI & Visualization: Power BI, DAX, Power Query, Tableau, Matplotlib, Seaborn

Advanced Excel: Pivot Tables, VLOOKUP/XLOOKUP, Power Pivot, Macros, Conditional Formatting, Dashboards

Databases: Oracle, SQL Server, PostgreSQL, MySQL, MongoDB, Snowflake

Data Management: ETL, Data Modeling, Star Schema, Data Validation, Data Profiling, Data Quality, Data Dictionary, Source-to-Target Mapping

Statistics & Analytics: Descriptive Statistics, Hypothesis Testing, A/B Testing, Regression Analysis, Correlation, Forecasting, Trend & Root-Cause Analysis

Reporting & Documentation: KPI Reporting, Ad-hoc Analysis, Requirements Gathering, UAT, Business Requirement Documents

Tools & Methods: Jupyter Notebook, VS Code, Git, JIRA, Confluence, Agile/Scrum, Microsoft Office Suite

PROFESSIONAL EXPERIENCE

Data Analyst

Nov 2021 – Apr 2024

Tata Consultancy Services (TCS) — Hyderabad, India

- Analyzed large datasets using SQL, Python, Excel, and Power BI to support business reporting, KPI tracking, and data-driven decision-making.
- Designed and developed 20+ interactive Power BI dashboards and reports with DAX measures, filters, and drill-through, reducing manual reporting effort by 40%.
- Wrote and optimized complex SQL queries (joins, CTEs, window functions, stored procedures) across Oracle and SQL Server databases to extract and analyze 5M+ records.
- Built automated ETL and data-cleaning workflows using Python (Pandas, NumPy), improving data readiness and reducing processing time from day to hours.

- Performed data validation, data profiling, and quality checks, reducing reporting defects by 30% and improving data accuracy.
- Conducted trend analysis, root-cause analysis, and ad-hoc analysis in SQL and Excel (pivot tables, VLOOKUP, macros) to identify business insights and process gaps.
- Optimized SQL queries and Power BI data models (star schema, relationships, incremental refresh), improving report performance by 60%.
- Created data dictionaries, source-to-target mapping documents, and UAT test cases to support testing, audits, and knowledge transfer.
- Collaborated with business stakeholders, data engineering, and QA teams to gather requirements, define metrics, and deliver accurate reporting solutions in an Agile/Scrum environment.

KEY PROJECTS

- **Customer Churn Analysis Dashboard:** Analyzed 500K+ customer records in SQL to identify churn drivers across tenure, plan type, and support-ticket volume; built a Power BI dashboard with cohort retention views and DAX-based churn-rate measures that helped the business team prioritize at-risk segments for retention outreach.
- **Sales Performance & Revenue Reporting Automation:** Replaced a manual Excel reporting process with an automated Python (Pandas) data pipeline feeding a Power BI star-schema model; delivered region, product, and rep-level KPI reporting with drill-through, cutting report preparation time from two days to under two hours.

EDUCATION

Master of Science, Computer Science

University of Central Missouri, Warrensburg, MO

Aug 2024 – May 2025

Bachelor of Technology, Computer Science and Engineering

Malla Reddy Institute of Technology & Science, Hyderabad, India

Jul 2017 – Jun 2021

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Google Data Analytics Professional Certificate
- IBM Data Analyst Professional Certificate
