

SUMMARY

Results-driven Software Developer with a proven track record of delivering high-impact applications, automation solutions, and UI/UX improvements in both low-code (Mendix) and traditional development environments. Skilled in translating business needs into scalable, maintainable software, with expertise spanning Python automation, web/mobile app development, and systems integration. Adept at working across the full SDLC, collaborating with stakeholders, and producing measurable efficiency gains. Certified in Azure, AI, and Mendix with hands-on experience supporting enterprise-scale deployments.

PROFESSIONAL EXPERIENCE

Impact Networking

Software Developer II

Lake Forest, IL

April 2025 - Present

- Designed and deployed new enterprise application features, improving system performance and usability for 250+ end users, and reducing task completion times.
- Led Python and Selenium automation initiatives, reducing manual testing time by 50% and shortening cycle turnarounds by 2 days.
- Delivered 5 major Mendix stakeholder-facing apps, increasing operational efficiency across targeted departments.
- Achieved a 95% incident resolution rate through root-cause analysis and proactive issue resolution.
- Promoted clean, maintainable code via OOP principles, design patterns, and peer code reviews, reducing post-release bugs.

Impact Networking

Enterprise Developer

Lake Forest, IL

September 2022 – April 2025

- Developed and maintained 5+ Mendix web and native mobile applications, centralizing data and streamlining workflows for internal and external users.
- Delivered all projects on or ahead of schedule through full SDLC collaboration.
- Modernized legacy HTML/CSS codebases, improving page load speed and mobile responsiveness scores.
- Built automated testing frameworks in Python/Selenium, increasing QA coverage and reducing bugs pre-release.
- Drove user adoption rates to 95% within 3 months of launch through stakeholder-aligned technical solutions.

Signature Bank

Information Technology Associate

Rosemont, IL

February 2021 – September 2022

- Provided day-to-day IT support for 150+ employees, including C-suite executive, across desktop and mobile environments.
- Managed software onboarding, user credentialing, and device provisioning for both local and remote teams.
- Created technical documentation used for internal IT training and end-user guides that reduced repeat helpdesk tickets by 35%.
- Ensured compliance during internal audits and security reviews across all system access points.
- Coordinated iPad distribution and monthly expense reporting for international and domestic teams.
