

Pavan Kumar Chintala

Data Analyst

pavank@techcareermail.com | (315) 6 0 3 - 7 6 3 7 | USA | [LinkedIn](#) | [GitHub](#)

Summary

Experienced Data Analyst with 3+ years of expertise in extracting, analyzing, and interpreting complex datasets to drive business insights and decision-making. Proficient in SQL, Python, and cloud-based ETL tools to streamline data workflows and ensure data accuracy. Skilled in data visualization using Power BI and Tableau to deliver actionable insights. Strong background in statistical analysis, predictive modeling, and cross-functional collaboration to support strategic goals and optimize performance.

Technical Skills

- Data Querying & Management:** SQL (Advanced queries, Window Functions, CTEs), AWS Athena, Azure Synapse, Data Warehousing, Epic (EHR), Healthcare Data Models (Claims, EHR, HL7/FHIR)
- Data Engineering & ETL:** AWS Glue, AWS Lambda, Azure Data Factory, Azure Data Quality Services, S3 (JSON, CSV)
- Programming & Analytics:** Python (NumPy, Pandas, SciPy, Matplotlib, Seaborn), R (K-means clustering), Statistical Hypothesis Testing, Time-Series Analysis, Correlation Analysis, Data Cleaning & Wrangling
- Data Visualization & Reporting:** Power BI (DAX, Drill-through, Row-Level Security, Dynamic Slicers), Tableau (LOD Expressions, Filter Actions, Drill-downs), Excel (Pivot Tables, VLOOKUP, Macros), Epic Reporting Tools (Reporting Workbench, Clarity, Caboodle)
- Methodologies & Tools:** Agile, Root Cause Analysis (Pareto, Time-Series), Cohort & Churn Analysis, Predictive Modeling, Clustering, Data Validation, ETL Automation, A/B Testing, KPI Tracking
- Cloud & Platforms:** AWS (Glue, Lambda, Athena, S3), Microsoft Azure (Data Factory, Synapse, Data Quality Services)
- Collaboration:** Cross-functional teamwork, Stakeholder Reporting, Documentation, Presentation Skills
- Healthcare & Compliance:** Epic (EHR), Claims Data, Population Health Analytics, HIPAA Compliance, Healthcare Data Governance

Professional Experience

Healthcare Data Analyst | Elevance Health | USA

Jan 2025 – Present

- Analyzed large-scale healthcare datasets including Epic EHR, claims, and population health data to identify trends, risk factors, utilization patterns, and preventive opportunities across diverse populations.
- Designed and executed end-to-end data analysis workflows using SQL, Python, Excel, and Epic Clarity/Caboodle data models to support population health initiatives and quality improvement programs.
- Prepared, cleaned, transformed, and validated datasets by integrating Epic EHR data with claims and external sources, ensuring data integrity and accurate clinical and operational analysis.
- Developed interactive dashboards, visualizations, and recurring reports using Tableau and Power BI to communicate health outcomes, cost drivers, performance metrics, and research findings to stakeholders.
- Collaborated with clinicians, epidemiologists, researchers, and cross-functional teams to translate analytical findings into actionable public health insights and data-driven preventive strategies.
- Conducted literature reviews, background research, and benchmarking analyses to validate methodologies, strengthen hypotheses, and align insights with current scientific evidence and industry best practices.
- Ensured adherence to HIPAA, ethical standards, and healthcare data governance requirements throughout data handling, analysis, reporting, and documentation processes.
- Prepared analytical summaries, progress reports, presentations, and documentation; contributed to manuscripts, abstracts, posters, leadership reporting, conferences, and peer-reviewed publications.
- Developed and utilized Epic reporting tools (Reporting Workbench, Clarity, Caboodle) to generate operational and clinical reports for stakeholders and leadership teams.

Data Analyst | Flipkart | Bangalore, India

Jan 2022 – Jul 2023

- Analyzed large-scale logistics and delivery datasets from warehouse systems, tracking platforms, and vendor sources to identify operational inefficiencies and improve decision-making.
- Built and maintained scalable ETL pipelines using Azure Data Factory, ensuring reliable data ingestion and transformation for downstream analytics.
- Optimized complex SQL queries in Azure Synapse Analytics, improving query performance by 28% and enabling faster reporting.
- Conducted Root Cause Analysis using Pareto analysis and time-series techniques to identify key factors driving delivery delays and SLA breaches.
- Developed predictive models in Python to estimate delivery times, reducing SLA breaches by 18% and improving customer satisfaction.
- Applied K-means clustering and built Tableau dashboards (using LOD expressions) to segment delivery hubs and track SLA performance, improving regional efficiency by 22%.

Academic Experience

Graduate Research Assistant – Data Analysis & Reporting

Clarkson University, Potsdam, NY

Mar 2024 – Oct 2024

- Analyzed multi-source environmental datasets using Python and SQL to identify pollutant trends and build predictive models.
- Developed interactive Power BI dashboards to present insights to academic stakeholders, supporting research and policy discussions.

Graduate Assistant – Data Collection & Analysis

Clarkson University, Potsdam, NY

Oct 2023 – Jan 2024

- Collected and structured large-scale web data using Python (Requests, BeautifulSoup) for academic research.
- Cleaned and prepared datasets using Python and Excel, enabling effective exploratory data analysis and insight generation.

Education

Master of Science in Applied Data Science

Clarkson University, Potsdam, NY, USA

Aug 2023 – May 2025

Bachelor of Technology in Electrical & Electronics Engineering

GMR Institute of Technology, Andhra Pradesh, India

Jul 2018 – May 2022
