SUMMARY

- Data Analyst with 3+ years of experience with expertise in Data Analysis, Visualization & entire Data Science process life cycle.
- Leveraged Python and advanced analytics to drive business insights and automation.
- Conducted data analysis in VS Code with Python, executing python scripts to write and store data in cloud database Snowflake, performed validations and wrote optimized Snowflake SQL for schema management and querying.
- Proven ability to translate complex data requirements into actionable intelligence using Power BI, Tableau etc.

SKILLS

Programming Languages: SQL, Python, R, C, HTML, ETL

Data Visualization & BI Tools: MS Power BI (DAX functions), MS Excel (advanced functions, pivot tables), Tableau

Data Analysis & Database Technologies: MySQL, Oracle SQL, SQLite, Data Warehousing, Data Acquisition, Data Cleaning, Data Mining, Data Preparation, Data Manipulation, Feature Engineering, Data Validation, Visualization

Big Data & Cloud Tools: Snowflake, Power Automate, SQLite, Impala, Hive, Spark, Hadoop

Development Tools & IDEs: Jupyter Notebook, VS Code, Visual Studio, Git, Azure DevOps

Data Science Libraries & Frameworks: NumPy, TensorFlow, Pandas, Matplotlib, ggplot2, Keras, Scikit-Learn

Machine Learning & AI: Neural Networks, Deep Learning, Supervised/Unsupervised Learning, Classification, Regression

Methodologies: SDLC, Agile/Scrum, Waterfall, Machine Learning Lifecycle

EXPERIENCE

Data Analyst 2, Railroad Commission of Texas (RRC), USA

Jan 2024 – May 2026

- Created and maintained Power BI reports and dashboards, leveraging DAX functions to support data driven decision making.
- Developed Python scripts and utilized advanced SQL querying skills in Oracle database for ad-hoc data retrieval, improving analytical workflows and delivering actionable business insights.
- Automated tasks by writing Python scripts in VS Code to improve efficiency e.g. to pull the earthquake-related data from the Tex Net earthquake website via a script that increased efficiency by 50%.
- Utilized Excel, advanced Excel formulas including Pivot Tables for data analysis to provide valuable insights and analyze trends.
- Worked on SQLite connection to Power BI & used advanced MS Excel skills for Weekly, Monthly Stats, Quarterly Performance Metrics.
- Implemented Snowflake and provided support to RRC data transmission from Oracle DB to Snowflake via Python scripts.
- Worked and partnered closely with the Chief Data Officer and IT staff on various projects like making RRC UIC datasets available on Texas Open Data Portal, verifying and validating data etc.
- Tested AI-powered form extraction model in Power Automate, automating information extraction from operator-filled forms.
- Active participation in requirement gathering meetings and Azure DevOps production testing (validating) as required by the business.

Data Analyst Intern, HCA Healthcare, USA

May 2023 – Dec 2023

- Implemented and followed Agile development methodology within the cross-functional team and acted as a liaison between the business user group and the technical team to support reporting and analytics initiatives.
- Worked in phases of DA lifecycle e.g. data cleaning, mining, validation, and visualization to improve data quality & reporting accuracy.
- Utilized Excel pivot tables, advanced functions & formulas, created Excel dashboards to monitor business KPIs & identify trends.

Business Analyst Intern, Sharecare Inc., USA

June 2022 - Aug 2022

- Optimized MySQL queries using query optimization techniques and indexing strategies, achieving 13% performance enhancement.
- Performed data refinement and cleaning using Python and SQL, thus improving overall efficiency by 12%.
- Conducted comprehensive competitive market analysis leveraging data intelligence techniques & sources of market intelligence data.
- Collaborated with 30 clients to address the need for interactive bookmarks and enhanced Power BI dashboard user experience.

EDUCATION

Executive Master of Science in Artificial Intelligence

June 2026 – Dec 2027

University of the Cumberland | Residency once per semester – Dallas campus, class module - Online

Master of Science in Business Analytics with Focus in Data Science

Aug 2021 – May 2023

The University of Texas at Dallas, Richardson, TX | Honors: Scholar with Recognition | **GPA 3.6/4.0**

Bachelor of Technology in Computer Engineering

July 2015 – May 2019

Indus Institute of Technology and Engineering, Ahmedabad, India | **GPA 8.34/10.0**
