WORK EXPERIENCE

Compensation Analyst

Bayhealth

Aug 2024 – Present

DOVER, DE

- Conducted market analyses to ensure internal pay structures remained competitive and aligned with industry benchmarks.
- Analyzed job descriptions and evaluated positions to recommend appropriate salary grades in alignment with organizational pay philosophy.
- Supported annual merit and compensation review processes by preparing compensation reports and data summaries for HR leadership.
- Collaborated with HR partners to guide salary offers, promotions, and equity adjustments.
- Utilized advanced Excel and HRIS tools to analyze trends, support compensation modeling, and maintain accurate employee compensation data.
- Assisted with compliance reporting and audit preparation to ensure adherence to federal and state compensation regulations.

Management Analyst III

EMSPS State of Delaware

Dec 2022 – Aug 2024

SMYRNA, DE

- Conducted budget overviews for the current fiscal year with a budget of \$10 million, ensuring financial acumen and compliance.
- Using strong project management skills to track all contracts and expenditures with meticulous attention to detail.
- Managed highly complex projects, resulting in a 20% increase in efficiency by using advanced analytical skills.
- Provided timely updates on grant management and demonstrated exemplary professional communication skills to facilitate effective collaborations.
- Led, guided, and monitored all aspects of writing an RFP, maintaining quality and consistency.

Management Analyst II

DPHL State of Delaware

May 2022 – Dec 2022

SMYRNA, DE

- Successfully obtained, organized, and submitted essential documentation for the Delaware Public Health Laboratory's expansion construction project, ensuring smooth project progression.
- Implemented an efficient inventory system that reduced supply retrieval by 20%, saving approximately 35 hours weekly.
- Efficiently handled the creation of vouchers and purchase orders, streamlining procurement processes.
- Demonstrated strong data entry skills, maintaining accurate and up-to-date records.

Laboratory Technician II

DPHL State of Delaware

Feb 2022 – May 2022

SMYRNA, DE

- Assisted in 7 laboratory research projects, each meeting or exceeding its research objectives within the set timelines.
- Addressed inquiries concerning private well water, using appropriate terminology to ensure clear communication and understanding.
- Conducted research to identify suitable supplies for the Environmental Chemistry & Wastewater laboratory, managing timely procurement to ensure efficient laboratory operations.
