

SNEHA LOKESH

Greater Boston, MA | Authorized to Work in the US (F-1 OPT) | 508-365-9403 | slokesh2811@outlook.com | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Results-driven Data Analyst with 3+ years of experience transforming complex datasets into actionable insights that drive revenue growth and operational efficiency. M.S. Data Analytics (Clark University, May 2026) with deep expertise in Python, SQL, machine learning, ETL pipeline engineering, and executive-level BI reporting. Proven track record applying statistical analysis, predictive modeling, A/B testing, and data visualization to inform strategic decisions across marketing, operations, and business intelligence functions.

TECHNICAL SKILLS

Languages & Analytics: Python (Pandas, NumPy, Scikit-learn), SQL, R, Statistical Analysis, Regression Modeling, Predictive Analytics, Machine Learning, NLP, Forecasting, A/B Testing, EDA

BI & Visualization: Power BI, Tableau, Excel (Pivot Tables, Power Query, VBA, Macros), KPI Development, Scorecard Reporting, Data Storytelling, Executive Reporting

Data Engineering: ETL Pipeline Design, Data Validation, Data Quality Control, Data Governance, AWS S3, FastAPI, REST APIs, Git, Splunk, Linux/Unix, Workflow Automation

Analytics Domains: Customer Lifetime Value (CLV), Market Segmentation, Campaign Performance, Conversion Rate Optimization, Demand Planning, Root Cause Analysis, Variance Analysis, ROI Analysis

PROFESSIONAL EXPERIENCE

Data Analytics Lead & Founder · Pop Art Prints, Bengaluru, India | Jun 2024 – Present

- Engineered Python & SQL ETL pipelines across 500+ SKUs to analyze customer behavior, pricing, and demand data from scratch — driving **40–60% revenue growth** across 3,000+ orders.
- Designed and automated Power BI & Excel KPI dashboards** tracking conversion rates, customer LTV, and revenue trends — reduced decision cycle time by **~30%** through real-time performance visibility.
- Applied market segmentation and customer cohort analysis** to behavioral data, improving targeted campaign ROI and identifying highest-value acquisition segments.

Data Manager · Cadence, Bengaluru, India (Contract) | Aug – Nov 2024

- Engineered SQL-driven ETL pipelines and data validation workflows** across 10+ datasets, reducing reporting errors and saving **3–5 hours/week** in manual processing while improving data integrity and governance.
- Developed **data stewardship frameworks** and stakeholder-ready BI reports, accelerating evidence-based decision-making and closing critical gaps in data quality control.

Data Analyst · Shinedan Ventures, Bengaluru, India | Jan – Jul 2024

- Conducted **root cause analysis and variance analysis** on sales and fulfillment datasets using Python (Pandas) and Excel, uncovering process gaps that drove a **25% reduction in delivery delays**.
- Independently built **demand forecasting models and performance scorecards** from requirements gathering to final delivery, improving inventory alignment and customer satisfaction.

HR Data & Systems Analyst Intern · Alchemy Solutions, Bengaluru, India | Sep – Nov 2023

- Gathered business requirements and designed **Excel-based automated tracking and reporting systems** for a 15+ candidate hiring pipeline, improving data accuracy and reducing administrative processing time.

KEY PROJECTS

- Drug Treatment Efficacy Analysis** (Python · Scikit-learn · Regression · Power BI): Built end-to-end ML pipeline on 1,000+ record clinical dataset — EDA, feature engineering, regression modeling, cross-validation — achieving **85–90% accuracy**; delivered executive dashboards translating findings into actionable clinical insights.
- PhishShield AI Detection Platform** (Python · FastAPI · NLP · REST API): Architected full-stack ML platform using NLP pattern analysis and real-time risk scoring (0–100); deployed stakeholder-ready threat explanations demonstrating end-to-end system design.
- Heart Failure Risk Dashboard** (Tableau · GenAI · Prompt Engineering): Built interactive Tableau dashboards surfacing clinical risk patterns; automated data-driven content generation via prompt engineering, eliminating manual reporting.

EDUCATION

M.S. Data Analytics (STEM) · Clark University, Worcester, MA · GPA: 3.6 | May 2026

B.S. Computer Applications · Kristu Jayanti College, Bengaluru, India · GPA: 3.7 | Jul 2023

CERTIFICATIONS

Google Data Analytics · Deloitte Data Analytics & Forensic Technology (Forage) · TATA GenAI Powered Data Analytics (Forage) · BCG X Data for Decision Makers (Forage) · Anthropic PII Awareness & Quality Control (Forage) · Vista AI Prompt Engineering & Workflow Automation (Forage)
