

SOUMY SREEKUMAR

SENIOR BUSINESS ANALYST

+1 630-720-6720 | sksoumy110@gmail.com | [LinkedIn](#) | Aurora, IL

PROFESSIONAL SUMMARY

Senior Business Analyst with 12+ years of experience driving business transformation, stakeholder engagement, and data-driven decision-making across Finance, Retail, Healthcare, and Pharma domains. Expert in requirement gathering, process optimization, and delivering scalable solutions using Agile methodologies. Proven ability to bridge business and technology teams to deliver high-impact outcomes. Proficient in SQL, Tableau, and Power BI, leveraging analytics and business intelligence to generate insights, improve operational efficiency, and support strategic initiatives.

CORE TECHNICAL SKILLS

Business Analysis: Requirement Gathering, BRD, FRD, RTM, User Stories, Use Cases, Gap Analysis, Impact Analysis, Process Mapping (AS-IS / TO-BE), Stakeholder Management, Business Process Re-engineering (BPR), Functional Specifications, Change Management

Analytics & BI: SQL (Joins, CTEs, Window Functions, Aggregations), Tableau, Power BI, Dashboard Development, KPI Definition & Reporting, Data Analysis, Data Visualization, Data Storytelling, Ad-hoc Analysis

Data Concepts: Data Modeling (Star/Snowflake Schema), ETL/ELT Processes, Data Validation, Data Governance, Data Reconciliation, Data Quality Frameworks, Data Profiling, Metadata Management

Tools & Platforms: Jira, Confluence, MS Project, Visio, SharePoint, Control-M, SAP CPQ, Advanced Excel (Power Query, Pivot Tables, Lookup Functions)

Methodologies: Agile (Scrum, Kanban), SDLC, Waterfall, UAT, SIT, Test Case Preparation, Backlog Grooming, Sprint Planning

Integration & Systems: API (REST), System Integration, Data Mapping, Source-to-Target Mapping, Interface Design, Data Flow Analysis

PROFESSIONAL EXPERIENCE

Capital One

Senior Business Analyst | Jun 2024 – Present

- Own end-to-end requirement lifecycle, from stakeholder discussions to solution delivery across multiple concurrent initiatives
- Influence business strategy and decision-making through KPI insights, performance analysis, and executive reporting
- Lead **requirement gathering and stakeholder engagement** across Product, Risk, and Operations teams, ensuring alignment with business goals
- Translate business needs into **functional and technical specifications (BRD, FRD, user stories)** for scalable solution delivery
- Define and monitor **20+ KPIs and business metrics**, enabling data-driven decision-making and improving reporting visibility by 30%
- Drive **process optimization initiatives**, improving operational efficiency by 15–20%
- Collaborate with engineering teams to design **data-driven solutions**, including ETL workflows and reporting frameworks
- Perform **SQL-based analysis** to identify trends, anomalies, and business insights from large datasets
- Develop **interactive dashboards (Tableau/Power BI)** to support executive reporting and performance tracking

- Lead **UAT, SIT, and data validation**, ensuring high-quality releases and reducing defects by 35%
- Conduct **gap analysis, impact analysis, and root cause analysis** to support continuous improvement
- Act as a bridge between **business stakeholders and technical teams**, ensuring clear communication and successful delivery
- Support Agile processes including **sprint planning, backlog grooming, and stakeholder demos**

LTI Mindtree

Senior Business Analyst | Jun 2023 – May 2024

(Client Engagement: Unilever Global)

- Designed and executed complex SQL queries on large-scale retail datasets (1M+ records), improving data retrieval performance by 35%
- Built scalable Tableau dashboards with 20+ KPIs, enabling real-time visibility into pricing, revenue, and market trends
- Developed data models and reporting layers to support cross-market and multi-region analytics
- Partnered with Data Engineering teams to define data ingestion pipelines, ETL workflows, and transformation logic
- Performed advanced trend, variance, and root cause analysis, identifying revenue leakage and improving margins by 12–15%
- Automated recurring reporting workflows using SQL + Tableau extracts, reducing manual effort by 30–40%
- Created source-to-target mappings and business rules documentation for data consistency across systems
- Conducted data validation and reconciliation, improving reporting accuracy by 25%+
- Led stakeholder workshops and requirement engineering sessions, translating business needs into technical solutions
- Supported forecasting and financial analytics models, driving strategic pricing decisions
- Collaborated in Agile teams, contributing to sprint planning, backlog refinement, and release delivery

Boston Harbor Consulting

Senior Business Analyst | May 2022 – Nov 2022

(Client Engagement: Agilent Technologies)

- Led PMO and delivery governance across multiple projects, ensuring 100% on-time delivery
- Translated business needs into detailed functional + technical specifications, including data flow diagrams and integration points
- Defined and documented Non-Functional Requirements (performance, scalability, reliability) improving system efficiency
- Coordinated SIT and UAT cycles, implementing structured test strategies and reducing defects by 30%
- Managed Requirement Traceability Matrix (RTM) ensuring full SDLC traceability
- Supported API integration and system interoperability, defining data exchange formats and validation rules
- Performed impact analysis and risk assessment, mitigating project delays by 20%
- Collaborated with engineering teams on data mapping and transformation logic

Microland Ltd.

Senior Business Analyst | May 2021 – May 2022

(Client Engagement: Ealing Council, UK)

- Optimized SQL queries and reporting logic, reducing execution time by 30–35%
- Built automated dashboards and reporting solutions, improving operational visibility
- Conducted AS-IS / TO-BE analysis, identifying process gaps and improving efficiency by 20%
- Performed data reconciliation across multiple systems, achieving 99% data accuracy
- Supported data validation, SIT/UAT testing, reducing defects by 25%
- Developed process documentation and workflow diagrams for system enhancements
- Collaborated with stakeholders to define reporting requirements and KPIs

Harman Connected Services

Senior Associate (Data Analyst) | Jul 2019 – Dec 2020

(Client Engagement: Circana (IRI))

- Migrate 100+ legacy BI reports to Unify platform, improving reporting efficiency by 40%
- Integrate multi-source datasets, enabling advanced analytics and reporting
- Build Customer Insight Reports (CIRs) driving strategic decisions for retail clients
- Automate report scheduling via Control-M, reducing manual effort by 50%
- Manage data governance and access control, ensuring secure data usage
- Improve report delivery timelines by 30%

Cisco Systems

Data Analyst | Jun 2015 – Jan 2017

- Develop HR dashboards with 25+ KPIs, improving leadership visibility into workforce metrics
- Automate reporting workflows, reducing manual effort by 25–30%
- Perform trend and predictive analysis, supporting workforce planning decisions
- Ensure data quality and governance compliance across global datasets
- Train 10+ team members on reporting tools and best practices

Manthan Services Pvt Ltd

BI Reporting Analyst | Jan 2015 – May 2015

- Develop Tableau dashboards for retail clients, improving reporting efficiency by 20%
- Perform data validation and anomaly detection, reducing reporting errors
- Conduct project health checks, proactively identifying risks

Tesco HSC

Data Analyst | Dec 2011 – Jan 2014

- Conduct competitive pricing analysis on large datasets, influencing pricing strategies
- Manage data quality control processes, ensuring 98%+ data accuracy
- Deliver market intelligence reports for strategic planning

Symphony Services Corp

Data Analyst | Jan 2007 – Apr 2010

- Perform ETL operations (extract, transform, load) for retail datasets
- Conduct trend and variance analysis, ensuring data consistency
- Validate large datasets (500K+ records), improving reporting reliability
- Support data warehouse operations and reporting pipelines

EDUCATION

Bachelor of Computer Applications (BCA)

Madurai Kamaraj University

Diploma in Electronics and Communication Engineering

Board of Technical Education

CERTIFICATIONS

- Certified Scrum Master (CSM) – Scrum Alliance
- IIBA Certification (ECBA/CCBA) – In Progress
