

AMEENA BIBI ABDUL

Java Full Stack Developer

ameenaabdul2930@gmail.com | (901) 338-4777 | [LinkedIn](#) | [Portfolio](#) | Memphis, TN

PROFESSIONAL SUMMARY

- Java Full Stack Developer with 3+ years of hands-on experience building scalable, high-performance web applications across healthcare, finance, and cloud-based environments.
- Proficient in Java (8/11+), Spring Boot, React.js, Node.js, and microservices architecture, with strong knowledge of both front-end and back-end development.
- Skilled in utilizing multithreading, modern Java features, and cloud platforms (AWS, Azure) to optimize application performance and enhance reliability, ensuring seamless scalability and high availability in cloud-based environments.
- Experienced in implementing secure, compliant systems using FHIR, HL7, and HIPAA standards. Adept at CI/CD automation, API integrations, and developing responsive UI components with modern testing practices (Jest, RTL).
- Committed to delivering efficient, maintainable, and user-focused solutions through Agile methodologies.

SKILLS

Languages: C/C++, Java (8/11+), JavaScript (ES6+), TypeScript

Frontend: React.js, Angular.js, Redux, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery, DOM Manipulation, Ajax

Backend: Spring Boot, Spring MVC, Spring REST, Spring Batch, Spring Security, Spring Data JPA, Node.js, Express.js

Cloud: AWS (EC2, S3, RDS, Lambda), Azure

Databases: MySQL, PostgreSQL, MongoDB, SQL Server, Oracle

Tools & Platforms: IntelliJ IDEA, Apache Tomcat, WebSphere, Jira, Rally

Testing & CI/CD: JUnit, Mockito, Jest, React Testing Library (RTL), Postman, Jenkins, GitHub Actions, Webpack, Git, GitHub, GraphQL, Kubernetes, Kafka

Architecture & Methodologies: Microservices, Multithreading & Concurrency, MVC, SaaS, Agile (Scrum), Waterfall, SDLC

Healthcare & Compliance: FHIR, HL7, EHR Integration, HIPAA, GDPR

WORK EXPERIENCE

CitiusTech, USA

Aug 2024 – Current

Java Full Stack Developer

- Developed automated test suites using React Testing Library and JUnit, achieving 85% test coverage and reducing production bugs by 30%, enhancing the stability and compliance of patient-facing systems.
- Optimized RESTful APIs using Spring Boot to support secure and efficient communication in clinical applications, reducing API response time by 35% and improving performance for time-sensitive healthcare workflows.
- Developed full-stack healthcare analytics applications, implementing FHIR-compliant APIs to enable secure and seamless Electronic Health Record (EHR) integration, enhancing interoperability and accelerating clinical data exchange.
- Integrated token-based authentication (JWT) with Spring Security to secure microservices, enhancing data protection and reducing login latency by 25% for authorized healthcare professionals.
- Implemented end-to-end CI/CD pipelines using Jenkins and GitLab CI to automate build, test, and deployment of healthcare microservices, reducing deployment time by 60% and improving delivery consistency across staging and production environments.
- Managed infrastructure as code (IaC) with Terraform and AWS CloudFormation, streamlining provisioning of secure and compliant cloud resources in line with HIPAA regulations.

Berkshire Hathaway, USA

Jan 2024 – Jun 2024

Java Full Stack Developer

- Established interactive UI/UX components using React.js, improving user engagement by 15% through optimized rendering, component reusability, and state management with Redux and React Hooks.
- Created and implemented a comprehensive logging and monitoring solution using ELK Stack (Elasticsearch, Logstash, Kibana) and Prometheus, enabling real-time issue detection and reducing mean time to resolution (MTTR) by 40%.
- Executed fine-grained authorization and authentication mechanisms for GraphQL APIs using Spring Security and JWT, reducing unauthorized access incidents by 30%.
- Employed concurrent service workflows using Java ExecutorService to efficiently process high-volume financial transactions in parallel, resulting in a 25% increase in system throughput and enhanced performance under peak load.
- Collaborated with CI/CD pipelines and DevOps practices in an Agile environment, automating code integration, testing, and deployment, reducing release cycles from weeks to days and improving delivery efficiency by 20%.
- Accomplished and managed scalable AWS EC2 instances to host Java-based applications, optimizing resource utilization and reducing infrastructure costs by 40% through auto-scaling and load balancing.

- Led the development of a real-time stock market analytics platform using React.js and Node.js, integrating AI-driven predictive models to deliver 20% more accurate market insights, resulting in improved user engagement and faster decision-making.
- Enhanced security and compliance of Spring REST endpoints using OAuth 2.0 and input validation, ensuring 100% adherence to financial regulations like PCI DSS and SOX.
- Created and optimized GraphQL APIs to enable efficient querying of financial data across multiple systems, reducing query time by 25% compared to traditional REST APIs.
- Implemented exception handling, logging (Log4j/SLF4J), and request validation within Spring MVC controllers, improving debugging efficiency and reducing customer support tickets by 20%.
- Built APIs and asynchronous jobs in Java and Spring Boot, leveraging multi-threading to optimize performance, and reduced response times for order updates, refund processing, credit card charging, and other payment-related APIs by approximately 70%.
- Directed migration of legacy SOAP-based services to RESTful architecture using Spring REST, cutting down API maintenance costs by 25% and improving developer productivity.
- Utilized AWS services such as EC2, S3, Lambda, and RDS to build a highly available, scalable cloud infrastructure for financial applications, resulting in a 30% reduction in operational costs.
- Led the migration of legacy financial systems to a microservices architecture, improving development velocity by 45% and enabling faster feature delivery for business-critical applications.

EDUCATION

Master's in Computer Science, University of Memphis, TN	May 2024
Bachelor's, Vignan's Lara Institute of Technology and Sciences, Vadlamudi, AP, India	May 2022

CERTIFICATIONS

Introduction to HTML, CSS, & JavaScript, IBM, and offered through Coursera

Exposys Data Labs Certificate of Internship in Data Science
