SUMMARY

- Business Analyst & Data Analyst with over 3+ years of experience in **Data Analytics, Business Intelligence, and Process Optimization** across healthcare, finance, and telecom industries.
- Skilled in SQL (MySQL, PostgreSQL, SQL Server), Python (Pandas, NumPy, Scikit-learn), and Power BI, leveraging data-driven insights for process automation, fraud detection, and KPI tracking.
- Strong expertise in Agile methodologies (Scrum, Kanban, SAFe), UAT coordination, and stakeholder management, utilizing Jira, Confluence, and Azure DevOps for cross-functional collaboration.
- Proficient in business process mapping (BPMN 2.0, UML), requirements gathering (BRD, FRD), risk assessment, and cost-benefit analysis, ensuring seamless system integration and regulatory compliance.

EDUCATION

UNIVERSITY OF NORTH TEXAS

Master of Science in Business Analytics

Denton, TX

Jan 2023 - Dec 2024

OSMANIA UNIVERSITY

Masters of Computer Application

Hyderabad, India

Aug 2020 - Sep 2022

OSMANIA UNIVERSITY

Bachelor of Computer Science

Hyderabad, India

May 2016 - May 2019

PROFESSIONAL EXPERIENCE

McKinsey & Company

Business Systems Analyst

GA

Mar 2025 – Present

- Partnered with client stakeholders and internal consulting teams to analyze complex business requirements, define project scope, and develop strategic data solutions aligned with enterprise goals.
- Lead the documentation and breakdown of user stories, business rules, and functional requirements to support digital transformation initiatives across finance and healthcare domains.
- Participated in Agile ceremonies (daily standups, sprint planning, retrospectives) to facilitate clear communication between cross-functional teams and ensure timely delivery of project milestones.
- Conducted in-depth data analysis using SQL and Python to uncover trends, assess KPIs, and provide actionable insights that inform high-level business decisions.
- Designed executive-level dashboards and reporting solutions in Power BI and Excel to support strategic planning, operational efficiency, and performance management.

Tech Mahindra

Data Analyst

India

Feb 2022 – Nov 2022

- Developed an automated reporting system using SQL (MySQL) and Power BI, reducing manual effort by processing records per day, cutting reporting time from 12 hours to 3 hours.
- Developed and maintained interactive dashboards and reports using tools such as Power BI, or Excel, enhancing data visibility for stakeholders.
- Conducted KPI analysis and market research using Python (Pandas, NumPy) to track performance metrics for 200+ business processes, leading to a 25% improvement in service efficiency.
- Optimized SQL queries in PostgreSQL, reducing data retrieval time by 5x, improving the speed of enterprise reporting dashboards used by senior management.
- Translated business needs into detailed technical specifications for development teams, facilitating the successful implementation of projects.
- Gathered and analyzed business requirements from stakeholders to define project scope and objectives, ensuring alignment with organizational goals.

Sutherland Healthcare Solutions
Associate – Transaction Processing

India
Nov 2019 – Dec 2021

- Processed healthcare claims data using SQL Server, handling over 3,000 medical claims daily, ensuring accuracy in billing and compliance verification.
- Automated data validation workflows using Excel (VBA, PivotTables), reducing manual claim entry errors improving claims processing turnaround time by 5 hours per batch.
- Designed process maps in Lucidchart, streamlining claims adjudication workflows for 10+ healthcare providers, cutting processing delays by 2 days per claim.
- Conducted risk assessments on HIPAA compliance workflows, identifying security vulnerabilities in data handling procedures, reducing potential compliance breaches by 30%.
- Collaborated with cross-functional teams, refining business rules for claim validation, leading to a 15% reduction in claim rejections and processing time.
- Developed Power BI dashboards for real-time tracking of claims settlements, improving decision-making for audit teams overseeing \$5M+ in healthcare transactions monthly.

KPMG
Business Analyst Intern

India
May 2019 – Oct 2019

- Designed financial analytics dashboards using Tableau, analyzing in revenue data, providing real-time insights into financial performance for corporate clients.
- Executed stakeholder interviews and documented BRD/FRD, streamlining requirement gathering for major compliance projects, reducing project delays by 10 days per phase.
- Performed cost-benefit analysis in Excel (VBA, PivotTables), helping optimize financial reporting workflows, saving 25+ hours of manual work per month.
- Led process improvement initiatives using Microsoft Visio and BPMN 2.0, enhancing compliance workflow efficiency, reducing audit processing time by 2 weeks.
- Validated SQL queries for risk assessment models, improving financial forecasting accuracy ensuring compliance with regulatory reporting standards.
- Assisted in UAT coordination for a finance transformation project, tracking over 150 test cases and reporting system defects using Jira, reducing post-deployment issues.

SKILLS

- | | |
|--|---|
| • Business Analysis & Strategy | Requirements Gathering (BRD, FRD, User Stories), Process Mapping (BPMN 2.0, UML, Lucidchart, Microsoft Visio), Stakeholder Management, MoSCoW Prioritization, Gap Analysis, SWOT Analysis, Risk Management, Cost-Benefit Analysis |
| • Agile & Project Management | Agile (Scrum, Kanban, SAFe), Sprint Planning, Backlog Grooming, UAT Coordination, Change Management, Jira, Confluence, Azure DevOps |
| • Data Analytics & Reporting | SQL Querying (MySQL, PostgreSQL, SQL Server), Data Wrangling, Data Cleaning, KPI Tracking, Market Research, A/B Testing, Business Intelligence & Visualization (Power BI, Tableau, MS Excel - VBA, PivotTables, VLOOKUP) |
| • Machine Learning & Predictive Analytics | Python (Pandas, NumPy, Scikit-learn), R, Data Storytelling, Predictive Modeling, Sentiment Analysis |
| • ETL & Data Warehousing | Data Extraction & Transformation (Apache Airflow, AWS Glue, dbt), Data Warehousing (Snowflake, Redshift, Azure Synapse) |
| • ERP & CRM Systems | SAP ERP, Salesforce, Oracle EBS, Microsoft Dynamics |
| • Collaboration & Documentation | Microsoft Office Suite (Excel, PowerPoint, Word), Business Case Development, Jira, Confluence |
