Vancouver, Canada

Bachelor of Commerce, Finance

May 2016

EXPERIENCE

Mycar Group Ltd, Middle Data Analyst

Dec 2022 – Present

- Increased marketing campaign ROI by 50% by building a “Client Portrait” dashboard using SQL, Pandas, and Power BI, enabling targeted segmentation and retention strategies.
- Automated weekly sales reports using SQL and Excel macros, saving 8–10 hours/week per sales manager and redirecting focus to revenue-driving activities.
- Integrated Jira API with Power BI to build a Project Tracking dashboard for product teams, improving delivery transparency and sprint planning—ultimately eliminating the need to upgrade a \$110,000/year project management subscription.
- Created automated KPI dashboards (sales, stock, aging inventory), improving data visibility across 30+ dealerships and reducing toxic stock by 22%.
- Partnered with senior stakeholders to define key metrics and validate data pipelines for consistent, reliable reporting.

SAVEIT Technologies Ltd, Product Manager / Product Analyst

May 2024 – December 2024

- Conducted 100+ customer development interviews; insights led to feature changes that improved user retention by 18%.
- Designed and ran SQL-based cohort and funnel analyses on >1M events to identify bottlenecks and high-churn segments.
- Utilized Amplitude, GA4, and Firebase to build retention and engagement dashboards, enabling data-driven product decisions.
- Collaborated cross-functionally with engineering and leadership teams to build and launch a food delivery app that reached #1 in the App Store (Food Category) within months of launch, driven by continuous data-backed iterations.

Westmark Tax Group Inc, Senior Tax Analyst

May 2016 – August 2021

- Led the administrative team, analyzed financial data to optimize tax savings, and managed tax returns and audits with a 95% success rate. Supported client engagement, business development, payroll, bookkeeping, and assisted start-ups with financial projections and business plans.

EXTRACURRICULAR ACTIVITIES & SKILLS

Certification: KPMG Data Analytics Consulting Virtual Internship, Junior Product Manager by Product Bee, Data-driven Product Management by GoPractice.
