-

Education

Portland State University – Portland, OR	June 2025
Bachelor of Science: Computer Science Major, 2025 - 3.44 GPA	
Portland Community College – Online and various campuses	June 2023
Associate of Science: Computer Science Major, 2023 - 3.34 GPA	

Experience

Capstone Project	January 2025 - June 2025
• Stored and integrated weather data from an API into Bikeped's public-facing non-motorized count database to compare it with bicycle and pedestrian use patterns • Did research into different Weather APIs, reading documentation • Created a program that calls one of several Weather APIs then uploaded data directly into the database • Contributed to Project document, mid-project presentation and final presentation • Met weekly, as well as posted a midweek update in the team's group chat that was formatted similarly to a stand-up meeting. • Repository: emilysnod/CS469-weather: Practicing creating data displays for weather APIs	
CS 314 Chocan Team Project	January 2024 - March 2024
• Project Scope: Worked as part of a five-member team to create a program that helps the (fictional) Chocan Corporation keep track of the records of their clients (or members) and employees (or providers) • Wrote parts of the Python Code • Contributed to the design document, the test plan document and the final presentation • Work in an Agile like environment	
Crew Member , McDonalds, Scappoose, OR	July 2022 - July 2023
Intern (Paid Internship) , OMIC R&D, Scappoose, OR	July 2020 - August 2020
• Assist the Robotics Solutions Researcher with projects • Program and operate Audrinos and Adafruit feather boards to help create vibration sensors • Read documentation and followed procedures • Engaged with cutting edge research in a hands-on environment	

Extracurricular

Robotics Club-Team FIRST Robotic Competitions - Scappoose High School	Sept 2016 - June 2020
• Programming subteam co-captain	Sept 2018 - June 2019
• Traveled with team to compete at worlds robotic competition in Houston, Texas	April 2017
