EDUCATION

Murray State University; Murray, KY | *Bachelor of Science: Cybersecurity & Network Management*

- Federal Pell Grant & KHEAA Cap Grant

West Kentucky Community & Technical College | *Associates' in Applied Science in Information Security*

- A+ Prep, Honors Distinction

Aiken Technical Community College | *Cybersecurity Networking Certificate & Computer Forensics*

WORK EXPERIENCE

Lean-Education Agile Foundation Laboratory | *Cybersecurity, Software Engineering, Distribution / Operations & Logistics*; Jan 2026 – Present (*Remote*)

- Collaborated with veteran and transitioning service member teams to deliver practical solutions through the ASCEND Collective's Vanguard Rising program.
- Engaged in hands-on projects with military teammates, strengthening professional and technical skills.

L'SPACE Program | *NASA's Proposal Writing & Evaluation Academy*; Jan 2026 – Present (*Remote*)

- Wrote clear, structured technical documentation and reports to communicate complex findings to non-technical audiences.
- Synthesized technical and contextual information to inform decision-making
- Collaborated with interdisciplinary teams to develop shared project goals and deliverables

BlackVenture Capital Consortium; New York, New York | *UX Design & Research Fellow*; Sep 2025 – Dec 2025 (*Remote*)

- I gained experience in design thinking, user research, analysis and information architecture.
- Worked with interactive wireframes and prototypes using Figma V0, and implementing visual design.
- Performed landscape and market analysis to locate key points and guide solution strategies.

Paxton Media Group (WPSD6); Paducah, Kentucky | *Media Systems Engineering Assistant*; Sep 2025 – Nov 2025 (*On-site*)

- Collaborated with the engineering team at Paxton Media Group to support technology systems, infrastructure, and digital publishing tools.
- Gained hands on experience within the media industry, learning about enterprise infrastructure supporting regional news operations.
- Developed an understanding of systems administration, technical support and digital publishing tools in a newsroom setting.

Lean-Education Agile Foundation Laboratory; Rock Hill, South Carolina | *Digital Media, AI Tech and Product Management Intern*; June 2025 – Jan 2026 (*Remote*)

- Practiced hands-on skills in graphic design, social media strategy, marketing, software development and product management through nested Workflows frameworks.
- Collaborated cross-functionally with teams to deliver client-driven projects across healthcare, education, technology, and startup sectors.
- Increased visibility, reach, and engagement for the Mental Pain and Trauma Center through targeted hashtag strategies and data-driven social media optimization.

Leadership and Character in Uncertain Times Web Series; Cambridge, Massachusetts | *Executive Fellow*; July 2025 – Aug 2025 (*Remote*)

- Gained hands-on experience in adaptive leadership strategies to navigate uncertainty and complex organizational challenges.
- Engaged in interactive simulations, in-depth case studies, and discussions with global peers, applying behavioral science principles to enhance moral reasoning and ethical decision-making.

3ns.domains | Claim Your .Web3 Domain; Greater London, England, United Kingdom | *Web3 AI Intern;* Nov 2024 – Jul 2025 (*Remote*)

- Worked on improving AI models.
- Assisted in developing and implementing AI/ML-driven solutions to support digital asset research and emerging technology projects.
- Increased model accuracy, performance, and efficiency.

NeuralSeek; Miami, Florida | *AI Agent Builder Intern;* Aug 2025 – Sep 2025 (*Remote*)

- I participated in a nationwide internship at Neural Seek, gaining hands-on experience with AI agent workflows.
- Gain insights with deployment and their best practices.
- Utilized Neural Seek's no-code platform to build and optimize AI workflows.

National Association of Broadcasters; Washington, District of Columbia | *Apprenticeship;* Oct 2024 – April 2025 (*Hybrid*)

- A six-month brief instruction towards cloud-based technologies and how they are implemented.
- Sponsored by the NAB Leadership Foundation - through the Federal Communications Commission (FCC)
- Experience and learn about Amazon Web Services and it's capabilities and how it's structured.

Savannah River Nuclear Solutions; Aiken, South Carolina | *Site Communications Facility Intern;* May 2024 – Aug 2024 (*On-site*)

- Performed administrative duties to Database Administration, and tagging of tools and equipment in the field.
- Work with communication site managers to understand the core to the transfer of patches, within radio frequencies.
- McAfee security licensing to MOTOROLA products installed to maintain and secured networks.
- Assisted with RF Engineers secondhand building Databases, switches, remote KVMS and VPMs.

USA Fencing; United States | *Fencer;* May 2014 – Aug 2018

- Competitively fenced throughout the school year, representing Louisville Fencing Center.
- Traveled and competed across the United States alongside numerous tournaments and championships.
- 1st of 9th - Corey Stable Memorial Open
- 91st of 164 - USA Fencing National Championships - Division III Men's Saber
- 11th of 23 - Fencing Center of Chicago ROC 1-2 - Division II Men's Sable

LEADERSHIP & VOLUNTEER EXPERIENCE

Louisville Fencing Center; Louisville, KY | *Assistant Fencing Instructor;* May 2014 – Aug 2018

- Led warmups and helped run practices.
- Supported tournaments and practice matches.
- Mentored students and encouraged growth.
- Helped coaches with training plans

TECHNICAL SKILLS

- Languages: Python, HTML
- Tools & Platforms: Microsoft Azure (including Sentinel, Defender for Cloud), AWS, SQL, Visual Studio, VirtualBox
- Security Tools: McAfee, Motorola ASTRO 25 Systems, Microsoft Defender, Proofpoint, Burp Suite, Wireshark,
- AI/ML Platforms: Neural Seek (no-code AI agent builder), Web3Names.AI, AI prompt engineering
- Databases & Admin: Database tagging, remote KVMS, VPMs
- Networking: Multi-Factor Authentication (MFA), Radio Frequency Systems, Communication Patching

PROFESSIONAL CERTIFICATIONS

- IBM CompTIA Security+ & CYSA+ Certification
- Google Microsoft Cybersecurity
- Amazon Web Services Amazon Web Services Training and Certification: Expert Events
- Security Blue Team Security Blue Team Junior Analyst
- Harvard University CS50's Introduction to Cybersecurity
- Cybersecurity Assessment: CompTIA Security+ & CYSA
- Google Cloud Security Encoder-Decoder Architecture
- Computer Technician (West Kentucky Community Technical College)
- Cisco Networking (West Kentucky Community Technical College)
- Motorola Solutions ASTRO 25 IV&D Motorola Radio System Administrator Workshop
- Proofpoint 2025 Proofpoint Certified Security Awareness Specialist (Expires 2027)
