SUMMARY

Junior Data Analyst with 2+ years of experience in SQL-driven data analysis, Excel reporting, and BI dashboard development. Skilled in cleaning, validating, and transforming structured datasets to generate actionable business insights. Strong experience in SQL databases, Excel (advanced functions), Python (Pandas), and Power BI/Tableau. Experienced in supporting India-focused business reporting and collaborating across time zones. Fluent in English and Hindi, enabling effective communication in multicultural environments.

TECHNICAL SKILLS

SQL & Databases: SQL (Joins, CTEs, Window Functions, Aggregations), PostgreSQL, MySQL, SQL Server, Oracle
Analytics & Reporting: Data Cleaning, KPI Development, Data Validation, Trend Analysis, Segmentation, Root Cause Analysis
Tools: Power BI, Tableau, Advanced Excel (Power Query, Pivot Tables, VLOOKUP/XLOOKUP), Python (Pandas, NumPy)
Programming: Basic Python for data automation and transformation
Professional Skills: Cross-functional collaboration, Reporting across time zones, Business insights translation, Documentation

PROFESSIONAL EXPERIENCE

DATA & ANALYTICS SPECIALIST

Jul 2024 - Present

Capital One, USA

- Perform data cleaning and analysis on multi-million record datasets using advanced SQL queries
- Build structured KPI reports using Excel and Power BI to support operational decision-making
- Develop reusable SQL logic (CTEs, joins, aggregations) to standardize recurring reporting
- Automate validation and transformation workflows using Python (Pandas), improving reporting accuracy
- Investigate data discrepancies and perform root cause analysis to ensure data integrity
- Collaborate with cross-functional stakeholders across teams to align metric definitions
- Create executive-ready dashboards in Power BI to monitor performance trends
- Document data sources, transformation rules, and reporting logic for governance

DATA ANALYST

Jun 2022 – Jun 2023

Deloitte, India

- Extracted and analyzed business data using SQL to support India-focused operational initiatives
- Cleaned and consolidated datasets in Excel for reporting across departments
- Built Power BI dashboards to track KPIs, performance metrics, and operational health
- Automated recurring reports using Python and Excel macros, reducing manual effort
- Conducted segmentation analysis to identify performance patterns in Indian market data
- Identified and resolved data quality issues through reconciliation and validation checks
- Translated analytical findings into clear business recommendations for stakeholders
- Supported cross-time zone collaboration with global teams

PROJECT EXPERIENCE

HR Data Analytics Dashboard (Power BI + Excel + SQL)

- Designed and developed an HR analytics dashboard to track employee performance, attendance, leave patterns, and working hours
- Integrated and cleaned data from multiple Excel worksheets using Power Query
- Created KPIs for attrition rate, employee productivity, leave utilization, and attendance trends
- Built interactive Power BI dashboards with drill-down capabilities for HR leadership
- Automated data refresh and reporting workflow, reducing manual tracking time by 3–4 hours per day
- Improved HR team's decision-making by providing real-time workforce insights

EDUCATION

- Master of Science in Computer and Information Sciences
Northwest Missouri State University, Missouri, USA

GPA - 3.70/4.0
Aug 2023 – Dec 2024

- Bachelor of Technology in Electronics & Communication Engineering
- Minor: Artificial Intelligence & Machine Learning
Vignana Bharathi Institute of Technology, Hyderabad, India

GPA - 3.32/4.0
Jun 2019 - Jun 2023
