

Hassan Khaled Hassan

Ful Stack Developer (Next.js / Node.js)

01156341785 | hassan.23987546@gmail.com | Facebook | LinkedIn | GitHub | El-Haram, Giza, Egypt

Profile

Full-Stack Developer skilled in designing and developing scalable, user-focused web applications. Proficient in React.js, Next.js, Node.js, and Express.js with strong knowledge of JavaScript, TypeScript, Redux, and API integration for state management and performance optimization. Experienced in building RESTful APIs, authentication systems, ERP integrations (Odoo ERP), and delivering responsive, cross-browser, mobile-first solutions using Tailwind CSS, Bootstrap, and Material UI. Adept at working with MongoDB, PostgreSQL, and MySQL to provide scalable database solutions. Passionate about applying Agile methodologies to deliver secure, high-quality, and business-driven applications

Education

Bachelor of Computer Science

Sep 2020 – Jun 2024

Faculty Computers and Artificial Intelligence, Cairo University

Giza, Egypt

- Specialization: Computer Science
- GPA: 3.15
- Grade: Very Good

Professional Experience

TechLand BS

May 2024 – present

MERN Stack developer

6th Oktober, Egypt

- Built and optimized scalable MERN stack applications for web and mobile platforms.
- Enhanced UI/UX by implementing modern components and RTL (Right-to-Left) content support.
- Collaborated with cross-functional teams to deliver new features that improved app functionality.
- Resolved performance and usability issues by incorporating client feedback into development.
- Led a technical team in backend and frontend development, ensuring high-quality deliverables.

education for employment Egypt (EFE) - Online

Jul 2023 – Aug 2023

Frontend Developer

- Completed a hands-on front-end internship, contributing to all phases of project development, from initial planning to final delivery.
- Gained practical experience in agile methodologies and collaborative development processes.
- Improved UI performance and implemented design updates on live projects.

CODSOFT Internship - Online

Jun 2023 – Jul 2023

Web development

Cairo, Egypt

- Engaged in a practical front-end internship, actively managing project lifecycles from concept development to completion.
- acquired hands-on expertise with collaborative development processes and agile approaches.

Skills

Next JS	React.js	React.Ts	Redux Toolkit	Bootstrap	Tailwind-CSS	
Material UI	HTML5	CSS3	Javascript	Type Script	Nodejs	Express
MongoDB	PostgreSQL	Figma	Adobe Illustrator	Adobe Photoshop	C++	
Java	Python	Problem Solving	Git and GitHub	Docker	Visual Studio Code	
npm/yarn	CI/CD Pipelines	OOP	Data Structures	Algorithms	Design Patterns	

Languages

English — Proficient

Arabic — Native/Bilingual

Certificates

- IBM Web development fundamentals [↗](#)
- CODSOFT Web Development [↗](#)
- EFE for Web Development Fundamentals [↗](#)
- React-JS from Scratch [↗](#)

Courses

Web Development Fundamentals, IBM	Jun 2023 – Sep 2023
Data structure and OOP with C++	May 2021 – Jul 2021
Introduction to Programming, American University	Jan 2020 – Mar 2020

Projects

Jadarat Website [↗](#)

Company profile and Hiring Platform.

Developed a **full-stack bilingual (Arabic/English) hiring platform** integrated with **Odoo ERP** for seamless business operations.

- Built using **Next.js, Node.js, Express.js, and MongoDB**, ensuring scalability and high performance.
- Implemented **dynamic job filters** (work type, title, sector, education) with **real-time search** for candidates.
- Integrated **RESTful APIs** and ERP modules for **applicant tracking, company billing, and reporting**.
- Designed **responsive, mobile-first UI** with **React.js, Tailwind CSS, and Bootstrap** for accessibility across devices.
- Added **localization support (Arabic/English toggle)** and regional settings for diverse audiences.
- Developed a **Career Blog and FAQ system** to improve user engagement and candidate guidance.
- Applied **Agile methodologies** and collaborated with cross-functional teams to deliver production-ready features.

TECHLANDBS Website [↗](#)

Company Portfolio Website Development

created and improved the **TechlandBS** website, a fully responsive and visually engaging platform showcasing the company's products and services. Built using the **MERN stack**, the website features an intuitive user interface, seamless navigation, and optimized performance. merged a **scalable backend** to manage content efficiently while ensuring a smooth user experience. Focused on **modern UI/UX principles**, to enhance accessibility and engagement.

Siwa Garden Website

Company Portfolio Website Development

planned and improved the **Siwa Garden** website, a fully responsive and visually engaging platform showcasing the company's products and services. Built using the **MERN stack**, the website features an intuitive user interface, seamless navigation, and optimized performance. blended a **scalable backend** to manage content efficiently while ensuring a smooth user experience. Focused on **modern UI/UX principles**, including RTL support, to enhance accessibility and engagement.

Traffic Detector

This is my graduation project.

is a traffic detector system that Utilizes machine learning models to analyze and forecast road traffic conditions, enabling more accurate predictions and improved traffic management. like RNN, LSTM, GRU, and random forest based on data from road cameras. The system provides real-time traffic forecasts and suggests alternative routes, integrating a React frontend with a Node.js and Flask backend, hosted at <https://graduation-project-fdvx.onrender.com>. 

YAmmi-food Restaurant

Multi Pages

YAmmi-food Restaurant is implemented by html, CSS, JS, Tailwind-css, React-jS

MOMAMIA Website

Multi Pages

Momomia Website is executed by html, CSS, jS, bootstrap, React-js.

Fitness and GYM web

Landing Page

This Page is handled by html, CSS, TS, bootstrap, React-Ts

PHONCO Store

Landing Page

This Page is applied by html, CSS, JS, bootstrap, React-js

Grilli Restaurant web

Landing Page

This Page is enforced by html, CSS, JS, bootstrap, React-js
