

Hassnain Kureshy

Full Stack Developer | MERN Stack

- imhassnainkureshy@gmail.com • Dallas, TX

Summary

A dedicated Full Stack Web Developer with over 7 years of experience in the IT industry, specializing in the MERN stack and modern JavaScript frameworks. Skilled in creating and developing scalable, efficient, and innovative applications tailored to client and business needs. Alongside my development expertise, I have experience managing servers, implementing DevOps practices, and working with AWS and Azure cloud services to ensure seamless deployment, scalability, and performance optimization. Adaptable and quick to learn, I thrive in fast-paced environments and am eager to contribute to a dynamic team.

Experience

Freelance

Remote

Full Stack Developer

10/2023 - Present

- Design, develop and maintain scalable full-stack applications using MongoDB, Express.js, React and Node.js.
- Set up CI/CD pipelines and manage version control using Git.
- Architect and implement robust server side logic, Restful APIs and microservices.
- Developed a multi-layer search and filter feature using AJAX and MySQL for skill-based user searches.
- Emphasized responsive design using CSS3 and Material-UI, ensuring a user-friendly experience across devices.
- Design and manage databases, including schema design, indexing, and query optimization.
- Optimize application performance, security and scalability across frontend and backend systems.
- Deploy and manage applications on cloud platforms like AWS and Azure.
- Implement authentication, authorization, and role based access control.

Excersys – <https://excersys.com/>

Remote

Front End Web Engineer - Contractor

05/2022 - 09/2023

- Developed and maintained web applications using PHP and MySQL.
- Assisted in creating RESTful APIs and integrating them with front-end applications.
- Worked on integrating third-party tools and services such as payment gateways, CRM platforms (like HubSpot or Salesforce), and email marketing tools.
- Developed, test, and maintained web applications aligned with WCAG and other accessibility standards.
- Leveraged Redis, Elasticsearch/OpenSearch, and DynamoDB for caching, search, and data storage needs.
- Monitored website performance, troubleshoot issues, and implement improvements as needed.
- Utilized SQL to manage and interact with databases, ensuring data integrity and efficient query performance.
- Debugged and resolved technical issues to ensure smooth website functionality and an optimal user experience.

BumpUp Tech

Remote

Front End Web Developer

02/2019 - 04/2022

- Developed and maintained websites using HTML, CSS, and JavaScript.
- Used React.js to create and manage dynamic, interactive website components.
- Ensured websites are fully responsive and optimized for all devices and screen sizes.
- Integrated third-party APIs and payment gateways such as PayPal and Stripe.
- Integrated CRMs like HubSpot and Salesforce to support sales and marketing efforts.
- Optimized websites for performance and SEO.

Skills
