

Ibrahim Ahmed Ali

Entry-Level Software Developer

Beni-suef, Egypt · ibrahimeahmed25@gmail.com · +201143387761

SUMMARY

Entry-level Python developer with practical experience in small projects and basic web development using HTML and CSS. Actively building skills through continuous learning and personal projects, with a strong interest in backend development.

Seeking an internship to gain real-world experience and contribute to a development team

EDUCATION

BACHELOR'S DEGREE
2023 - 2027

Beni-Suef University

PROJECTS

- **Background Remover (Python)**
Automated background removal from images using Python. Learned to apply image processing techniques and optimize results for research/analysis
[GitHub](#)
- **YouTube Video Downloader (Python)**
Developed a simple downloader using Python libraries to fetch and save YouTube videos. Strengthened understanding of working with external libraries and handling user input
[GitHub](#)
- **Login Page (HTML, CSS)**
Designed responsive login pages with HTML5 and CSS3. Practiced building UI components and styling forms for better user experience
[GitHub](#)
- **Portfolio Website (HTML, CSS)**
Created a personal portfolio webpage to showcase projects. Applied clean layout techniques, responsive design, and basic UI/UX concepts
[GitHub](#)
- **Chat Room (Python, Sockets, Multithreading)**
Implemented a simple chat room application where multiple clients can connect to a server and exchange messages in real time. Built using Python's socket and threading libraries to manage client connections, message broadcasting, and disconnection handling.
