WORK EXPERIENCE

Bank of New York- Lake Mary, FL

06/2024 - Present

Data Operations Associate - Contract via Genesis10

- Conduct data management activities to support daily operations related to Mutual Fund and ETF valuation, as well as Security Master building and maintenance. Review and resolve expectations to ensure data accuracy and integrity.
- Analyze internal and external datasets as well as client reference data, and provide analysis in market development for securities data. Utilize query techniques to extract and interpret data for analytical reports.
- Monitor and maintain moderately complex databases and spreadsheets. Perform calculations, and create initial drafts of monthly analytical reports for review.
- Developed and improved automated Excel scrubs to enhance data validation for security accuracy, reducing the risk of operational errors.

Life Enhancing Dentistry- Orlando, FL

2/2022 – 5/2024

Practice Analyst (10/23 - 05/24)

- Project: Utilized Excel and Python to analyze patient flow and treatment acceptance rates, identifying production inefficiencies and uncovering target demographic trends. Insights directly shaped targeted outreach strategies aimed at increasing patient acquisition and retention.
- Conducted financial analysis on insurance reimbursement rates, and production vs. collection trends to support strategic decision making
- Created and maintained financial spreadsheets to track key performance indicators (KPIs) and operational metrics.
- Audited billing and insurance processes to detect revenue leakage and improve claim acceptance and payment timelines.

Insurance Coordinator (02/22 - 10/23)

- Verified client insurance eligibility and benefits, ensuring accurate coverage for services rendered
- Maintained up-to-date knowledge of dental insurance policies and billing requirements to ensure compliance and minimize claim rejections
- Identified trends in regretted claims and implemented corrective actions to improve processing accuracy
- Educated patients on insurance coverage details and treatment limitations, to ensure clear understanding of financial responsibilities and informed decision-making

Aestheticare Dental- Queens, NY

01/2021- 10/2021

Dental Assistant

- Nurtured strong customer relationships daily by professionally addressing inquiries and concerns.
- Managed customer complaints proficiently, and maintained database records
- Conducted thorough working interviews to evaluate the qualifications of dental assistant candidates.
- Delivered comprehensive training to new hires covering sterilization protocols to patient crisis management.
