

Phanindra Singamsetty

Albany, NY | 607-370-8619 | phanindrasingamsetty1@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

- Proficient in the full Software Development Life Cycle (SDLC), including requirements gathering, implementation, testing, and deployment of Object-Oriented Applications in various environments.
- Expertise in Agile (SCRUM), Waterfall, and Test-Driven Development (TDD) methodologies, ensuring efficient project delivery.
- Skilled in Java/J2EE technologies such as Java 8/11, OOP, Spring Boot Framework, JSF, JSP, JDBC, and JMS.
- Extensive experience with modern Java features like Lambdas, Streams, Observables, and Completable Future, enhancing application performance and scalability.
- Solid understanding and hands-on experience in designing Frontend & Backend applications using Java, J2EE Web frameworks, HTML5, CSS3, AngularJS, ReactJS, NodeJS, JavaScript, AJAX, and jQuery.
- Proficient in both Monolithic and Microservices architectures, developing Cloud Native Microservices utilizing Spring Boot, Spring MVC, REST, and deploying on AWS, Azure, and Google Cloud Platform.

EDUCATION

Binghamton University, State University of New York, Thomas J. Watson College of Engineering and Applied Science

Master of Science in Computer Science

May 2024

Cumulative GPA: 3.58/4.00

Vellore Institute of Technology

Vellore, India

Bachelor of Technology in Electronics and Communications

June 2020

Cumulative GPA: 3.48/4.00

TECHNICAL SKILLS

Languages: Java, J2EE, JSON, CI/CD, PL/SQL, Python, Type script, JavaScript.

J2EE Technologies: JSP (2.x), JSF, JSTL, Servlets (3.1, 3.0), JDBC, Java Beans, XSD, Axis, Apache CXF,

Web Technologies: HTML, CSS, JavaScript, Bootstrap, jQuery, CSS, JSON, React JS, Redux JS, Tailwind CSS

Frameworks/ Tools: Spring (4.x/3.x), Hibernate (5.x, 4.x, 3.x), Struts (2.5/2.3), Spring MVC, Spring IOC, Spring Boot, Spring AOP, Spring Web Flow, Spring Security, Spring Batch, Spring Cloud, JPA

PROFESSIONAL EXPERIENCE

New York State ITS, Java Developer | Albany, NY

Jul 2024- Present

- Led the modernization of enterprise web applications, transitioning from legacy EJB architecture to Spring Boot for backend services and React.js for the frontend, improving performance, maintainability, and user experience.
- Redesigned legacy server-side JSP applications to utilize React.js, enhancing the user interface, improving client-server interactions, and achieving responsive, scalable web applications.
- Developed and migrated backend microservices from EJB to Spring Boot with RESTful APIs, improving service interoperability and enabling seamless communication with the React frontend and other external services.
- Managed asynchronous communication systems using Apache Kafka and RabbitMQ, improving system scalability and handling large volumes of real-time data processing.
- Designed and integrated RESTful web services with Spring Boot, ensuring secure, scalable, and reliable communication between different applications.
- Extensively worked with Oracle Database, writing complex SQL queries, stored procedures, and triggers to manage data and integrate application logic.
- Implemented Elasticsearch for scalable, high-performance search functionalities, enhancing data retrieval and system efficiency.
- Employed Maven for project dependency management, build automation, and optimized development workflows, ensuring continuous integration and delivery.

GSO Binghamton, Web Developer | Binghamton, NY*Jun 2023 – Jun 2024*

- Led the entire Software Development Life Cycle (SDLC) from requirement gathering, through design and analysis, to code development and deployment.
- Designed and implemented frontend interfaces using modern JavaScript frameworks such as ReactJS and Tailwind CSS, ensuring intuitive user experiences.
- Developed scalable backend solutions with Spring framework and Spring Boot, leveraging Spring Core, Spring AOP, and Spring IOC for efficient business logic implementation.
- Managed AWS services including IAM, RDS, and S3 for storage, content delivery, and application deployment, enhancing system reliability and security.
- Containerized services and APIs, facilitating seamless deployment and scalability on AWS EC2 instances.
- Implemented RESTful APIs with Spring Boot, integrating modules to meet design requirements and ensure smooth backend functionality.

Wipro Technologies, Project Engineer | Hyderabad, India*Sep 2020 – Jul 2022*

- Led the development of a core payment processing system using Spring Boot and Microservices, ensuring seamless Stripe PSP integration.
- Designed and developed payment status tracking to achieve 100% reliability in transactions.
- Architected and optimized Stripe webhook handling, implementing thread pools for improved concurrency and performance.
- Enhanced security by integrating Stripe's authentication mechanism and AWS Secret Manager for secure API key storage.
- Designed and implemented modular payment service using design patterns (Factory, Builder) and SOLID principles for maintainability.
- Worked with ActiveMQ to implement asynchronous event-driven communication for high scalability.
- Optimized database interactions using Spring JDBC and MySQL, reducing query execution time.
- Developed robust exception handling using Spring's error-handling mechanism, improving system resilience.
- Implemented CI/CD pipelines for automated deployment on AWS (EC2, RDS, S3).
- Collaborated in Agile teams, participating in sprint planning, code reviews, and architectural discussions.

PROJECT EXPERIENCE**Movie Recommendation Hub, Team Leader** | Binghamton, NY*Feb 2024 – May 2024*

- Developed a high-performing web application using React, HTML, Tailwind CSS, Redux, Firebase, and TMDB API for movie video sharing platform to watch movies
- Enhanced user experience and security by implementing Firebase authentication with email and password logins, and a unique "GPT Search" feature for recommending a movie to user powered by Open-AI API

Retail Business System, Team Leader | Binghamton, NY*Aug 2023 – Dec 2023*

- Integrated a Java interface by JDBC for efficient data interaction.
- Performed complex data manipulation tasks including retrieval, modification, and automation, ensuring data accuracy and efficiency.
- Developed PL/SQL package and implemented RDBMS. Managed sequences, interfaces and data

LEADERSHIP EXPERIENCE**Graduate Student Organization, Vice President** | Binghamton, NY*Jul 2023- Jun 2024*

- Led the student body as University Vice President by chairing key committees like Bylaws, Budget, and Student Employment, ensuring smooth operations and responsible resource allocation
- Managed a student community with 36 different organizations, including academic clubs, cultural groups, and special interest teams
