

NANDITA BHUTADA

+1 (919) 650-8267 | nanditabhutada79@gmail.com | Virginia

Summary

An enthusiastic and detail-oriented Master's student in Computer Science, with a strong foundation in front-end development, full-stack solutions, and AI/ML. Proficient in creating user-friendly, responsive interfaces and passionate about building engaging, human-centered experiences. Looking to contribute with technical expertise and creativity to innovative social platforms.

Education

New Jersey Institute of Technology, New Jersey - Masters, Computer Science

GPA: 3.5

Keshav Memorial Institute Of Technology (JNTU) - B.Tech, Information Technology

GPA: 7.5/10 (2019 - 2023)

Course Works

Data Structures and Algorithms; Machine Learning; Database Management Systems; Web Technologies; Computer Networks; Operating Systems; Artificial Intelligence; Data Analytics with R; Introduction to Big Data; Deep Learning; Data Visualization

Work Experience

Data Architecture Co-Op | Realty Income Corporation (Remote, USA - September 2024 - December 2024)

Validated Salesforce-MCI data mappings, which reduced errors by 20%. Automated lease management reconciliation processes. Designed process flows, user manuals, and requirements for stakeholders. Provided support for agile cycles and milestone reviews.

Business Analyst Intern | Realty Income Corporation (Remote, USA - June 2024 - August 2024)

On the development side, I designed automated alert Lightning email templates. The design included 62 Salesforce objects complete with fields and relationships. Integrated Salesforce with MRI systems to automate lease tracking.

Billing Administrator | Steel Weld & Wire Products (Hyderabad, India - January 2021 - August 2023)

Managed invoicing process ensuring accuracy and timely adjustments. Contributed to operational efficiency and client trust.

Technical Skills

Programming Languages: Java, Python, C, R

Full-Stack Development: Flask, Express.js, Node.js, React, Django

Web Development: HTML, CSS, JavaScript, MySQL, NoSQL, Postgre SQL, PHP

Cloud Platforms: AWS (EC2, S3, Lambda, IAM)

Containerization & Orchestration: Docker, Kubernetes, OpenShift

AI/ML: Generative AI, OpenCV, PCA-SVM

Version Control: Git, GitHub

Development Methodologies: Agile

Soft Skills

- Exceptional written and verbal communication skills
- Strong analytical and problem-solving abilities
- Team-oriented and highly adaptable
- Adaptability in Global Environment

Academic Projects

- **React Portfolio (2024):** Developed a personal portfolio website using React, showcasing projects, technical skills, and achievements. The website is fully responsive and highlights proficiency in front-end development, including the use of components, state management, and modern JavaScript features. **LINK:** <https://github.com/Nandita-Bhutada/Portfolio>
- **MapReduce-Based Poker Card Finder | NJIT (Hadoop Cluster):** Designed and tested a MapReduce-based approach to identify missing poker cards in distributed datasets.
- **AI-Powered Resume/Cover Letter Toolkit (2024):** Developed a comprehensive web-based ResumeWizard platform using Django, offering tailored resume reviews and feedback to enhance job seekers' applications
- **Library Management Application (2023):** Created a secure Library Management Application with dynamic functionality using HTML, CSS, JavaScript, PHP, and MySQL
- **Sports Personality Image Detection (2023):** Implemented Python-based image quality enhancement with HaarCascade for face detection and PCA-SVM for precise face recognition. Integrated with OpenCV and specialized libraries.

Certifications

Full Stack Software Developer Professional Certificate - IBM; Data Structures and Algorithms using C/C++ - Udemy; Dynamic Programming - Udemy; Data Science with Engineers NPTEL - Swayam; Social Networks course NPTEL - Swayam.
