

RITIKA KALYANI

Data Analyst

Ohio, USA | 3305524047 | Connect.ritika@outlook.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Data Analyst with 3+ years of experience in large-scale **reporting**, developing automated **dashboards** and **exploratory data analysis** across **financial, operations, technology** and **consumer**-focused domains. Proficient in **SQL, Python, Excel, Tableau, Power BI** and **Jira**, with hands-on experience building **ETL pipelines** on **AWS** and **Azure** that saved **8-10 hours weekly** and **increased data accuracy** by **70%**, while **collaborating** with **cross-functional** teams (operations, finance, sales) and **stakeholders** to **gather requirements**, align **KPIs** and **present complex analyses** using clear **visualizations** and executive **summaries**.

PROFESSIONAL EXPERIENCE

Data Analyst | JP Morgan Chase | New York, USA

Mar 2025 – Present

- Reduced reporting cycle time by **60%** by automating ETL workflows in **SQL, Python, and Alteryx**, efficiently processing **200K+ daily financial transactions** across banking systems.
- Improved data accuracy by approximately **70%** by creating a structured data governance, validation and reconciliation framework with anomaly rules and audit checks across risk, liquidity, and cash-management datasets.
- Conducted **exploratory analysis** on trading, liquidity, and revenue datasets using **Python (pandas)**, identifying **15+** recurring anomaly patterns that informed monthly risk and performance reviews.
- Delivered over **5 automated dashboards** in **Tableau & Alteryx** to visualize revenue, exposure, and liquidity trends, reducing manual report preparation time by over **10 hours per week** for executive meetings.
- Communicated findings to **finance, risk, compliance, and operations stakeholders** through structured walkthroughs and written summaries, aligning definitions for **20+ KPIs** and improving trust in reports.
- Led **ad-hoc analyses** on spikes in failed transactions and liquidity mismatches, resolving **90%** of incidents within **48 hours** and preventing repeat issues across 3 business lines.

Business Analyst/Systems Engineer | Infosys Limited | India

Sep 2021 - Apr 2023

- Cleaned, standardized, and merged **1M+ row** sales, inventory, and customer (CRM/ERP) datasets from AWS S3, MongoDB, and AWS RDS using Python, and SQL, reducing downstream data-quality defects by **40%**.
- Analyzed product, region, and store performance across **500+ retail locations** using **EDA** and **advanced Excel techniques**, identifying underperforming segments that drove an **8% sales uplift** and **increased category ROI**.
- Developed and maintained **5+ Tableau dashboards** tracking revenue, margin, stock-outs, and sell-through KPIs, reducing ad-hoc reporting requests from marketing and operations by **30%**.
- Automated ETL workflows in AWS Glue to refresh key retail datasets **daily**, cutting reporting turnaround from **3 - 4 business days to same-day delivery (60% faster)** for category managers.
- Executed **A/B testing** on **20+ price and promotion tests**, quantifying **10 -15% lift** in sales or conversion for winning strategies and guiding future campaigns.
- Collaborated with marketing and operations stakeholders in **bi-weekly review sessions**, maintained project tasks and enhancements in **JIRA**, supporting Agile delivery across analytics and systems teams.

Data Analyst Intern | Dell Technologies | India

Dec 2020 - Jul 2021

- Cleaned and integrated multi-source financial, sales, and operational data from multiple sources using SSIS, Python, and Azure tools, automating data checks and cutting manual corrections in reporting by **50%**.
- Built **4+ interactive operational Power BI dashboards** with drilldowns for revenue, margin, and supply-chain KPIs, cutting recurring report preparation time by **80% (from hours to minutes)** for finance and operations teams.
- Delivered **15+ ad-hoc and root cause analyses** per quarter on supply-chain delays and revenue variances, enabling operations and finance to resolve **90%** of recurring issues within the same period.

TECHNICAL SKILLS

Programming Languages: Python (NumPy, Pandas, Scikit-learn, TensorFlow), R, SQL

Data Visualization: Power BI, Tableau, MS Excel (Pivot Tables, VLOOKUP/XLOOKUP, Dashboards, Macros), Looker, Quicksight

Databases & Warehousing: MySQL, PostgreSQL, SQL Server, Oracle, MongoDB

ETL & Data Pipelines: SQL-based ETL, SSIS, AWS Glue

Cloud Services: AWS (S3, EC2, Athena, Lambda, Redshift, Glue), Azure Data Factory

Collaboration: JIRA, Confluence, Agile (Scrum, Kanban), SDLC, Waterfall

Other Tools: Jupyter Notebook, Git/Github, VS Code, PowerPoint, SharePoint, Google Analytics

Data Analysis & Processing: Exploratory Data Analysis (EDA), Data Wrangling, Data Cleaning, Data Transformation, A/B Testing, Root Cause Analysis, KPI Development & Tracking, Statistical Analysis

Machine Learning: Predictive Modeling, Forecasting, Regression Analysis, Clustering, Classification, Anomaly Detection, LLMs

EDUCATION

Kent State University | USA

Aug 2023 – Dec 2024

Master of Science in Business Analytics | GPA: 3.94

Jawaharlal Nehru Technological University | India

Aug 2017 – Aug 2021

Bachelor of Technology in Computer Science | GPA: 3.54
