PROFESSIONAL STATEMENT

A current graduate student in Data Analytics with a Master's in Education, bringing experience working with regulated records, data integrity, and compliance-driven processes in education and healthcare-adjacent environments. Background includes managing sensitive information, supporting accurate reporting, and collaborating with diverse teams while strictly adhering to privacy, ethical, and procedural standards.

SKILLS

- **Assessment Data Analysis & Administration** - Coordinating, validating, and reporting large-scale assessment data with accuracy and compliance
- **Data Management & Data Integrity** – Maintain and manage structured datasets, data verification, and record accuracy across database systems.
- **Business & Data Tool** – Microsoft Excel, Microsoft Access, PowerPoint, Google Workspace, Tableau, Power BI, Python
- **Data Compliance & Ethics** – Handle confidential and regulated information in education and healthcare environments
- **Bilingual Communication** – Fluent in English and Spanish
- **Professional Communication & Collaboration** – Engage productively with cross-functional teams through respectful dialogue, active listening, and clear exchange of information
- **Time Management & Multitasking** – Capable of handling high-volume tasks while maintaining quality and efficiency.
- **Stakeholder Support & Task Management** – Assisted cross-functional teams to support data-driven decision making
- **Project Coordination & Task Management** – Support multi-step projects, tracked timelines, and contributed to deliverables
