SUMMARY

Experienced Business Analyst with over 5 years in business analysis, project coordination, and product configuration, specializing in utility, contract receivables, and payables. Skilled in SDLC methodologies (Waterfall, Agile, Spiral), SAP ERP, and data analysis using Tableau, Power BI, Excel, and SQL. Proficient in creating BRDs, FRDs, and BPPs, and conducting GAP, SWOT, and risk analyses. Known for leading cross-functional teams, delivering custom solutions, and translating complex requirements into data-driven insights.

EXPERIENCE

Intuit, USA | **Business Analyst** Jan 2024 - Current

- Conducted **exploratory data analysis (EDA)** with **Python (Pandas, NumPy)**, **SQL**, and **Google Cloud**, identifying market trends that improved portfolio management strategies, leading to a 6.8% increase in overall investment returns.
- Extracted, analyzed, and visualized large datasets from **SQL Server** to generate comprehensive business reports, improving investment risk assessments and boosting operational efficiency by 15%, enabling **data-driven decision-making**.
- Engineered interactive **Tableau** dashboards to visualize key investment metrics, improving real-time decision-making for senior leadership, reducing report generation time by 30%, and increasing overall team productivity.
- Involved with stakeholders to gather detailed **business requirements** and design **KPI-driven solutions** that aligned with business goals, ensuring more accurate insights and optimizing reporting processes for improved operational outcomes.
- Managed **User Acceptance Testing (UAT)** for new data systems, ensuring accuracy and a seamless user experience, resulting in fewer errors, improved system effectiveness, and higher user satisfaction and adoption.
- Designed and maintained **process flow diagrams** in **MS Visio** and tracked **functional/non-functional requirements** in **Jira**, improving project organization, tracking, and ensuring timely project delivery for optimal operational results.
- Implemented a tailored **business requirements collection process** using **Agile methodology**, improving project efficiency and adaptability by 25% while ensuring timely delivery of accurate, client-specific solutions that met stakeholder needs.

PNC, USA | **Business Analyst Intern** Aug 2023 - Nov - 2023

- Collaborated with **stakeholders** to gather and document **business requirements** for banking projects, ensuring alignment with business objectives and supporting the development of actionable **project specifications** for cross-functional teams.
- Assisted in creating **business process flow diagrams** and **process documentation** using **advanced Excel**, helping identify inefficiencies in banking operations and recommending improvements to optimize and enhance business performance.
- Carried out **requirement elicitation** sessions with stakeholders to gather detailed business needs, utilizing **CRM** tools to track customer data and **VBA** in Excel for automating processes, ensuring efficient communication alignment for smooth execution..
- Utilized **SQL** and **advanced Excel (pivot tables, macros,)** to analyze and present banking data, assisting senior analysts in identifying key trends, which contributed to **data-driven insights** and informed **business decisions**.

Adons Softech, India | **Business Data Analyst** Feb 2019 - Dec 2021

- Played a key role in building an enterprise **data warehouse** using **Redshift**, centralizing customer data to align with corporate standards, driving sales growth and enhancing **data accessibility** for faster decision-making across teams.
- Supervised **SQL** for **data modeling** and supported corporate training on advanced **data visualization** techniques, improving team capabilities in analysis and reporting, leading to better insights and stronger **data-driven decision-making** in departments.
- Enhanced **data efficiency** by 24% through **data cleansing** initiatives with **Alteryx**, improving data accuracy and optimizing processes, enabling teams to make more precise decisions based on cleaner, actionable data.
- Created **Business Requirement Documents (BRD)** and **Functional Requirement Documents (FRD)** while collaborating with compliance and risk teams, aligning analytics with **regulatory standards** to strengthen **risk management**.
- Spearheaded **data analysis** in **MS Excel**, utilizing **VLOOKUP** and **Pivot Tables** to generate actionable insights, increasing operational efficiency by 20% and driving productivity improvements across business operations.
- Developed interactive **Power BI** dashboards, reducing report generation time by 40% and offering stakeholders real-time insights into key metrics, empowering more informed decisions and boosting overall business performance.
- Guided **JAD sessions** with business users to define and prioritize requirements, using **elicitation techniques** to ensure project objectives aligned with organizational goals, ensuring timely delivery of solutions that met business needs.

TECHNICAL SKILLS

Languages : SQL, Python, R, SAS
Database : My SQL Server, MS SQL, Oracle
Visualization Tools / Other Tools: Tableau, Power BI, Figma, Looker Studio, Alteryx , AWS, GCP
Analysis Skills: Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis
Tracking / Software / Other Skills: Jira, Microsoft Visio, JAD, Rational ClearQuest, RTM, UAT, Lucid chart, ETL Process, ELT Process, ERP Systems, Test Outlines & Test Cases, Use Cases & Use Case Mapping, Business Requirements (RTM), Microsoft Access, Confluence, Machine Learning, Google Analytics, Business Analysis, Requirements, Data Modeling, Data Visualization, Business Intelligence, Data Analytics, SDLC, Agile/Scrum, Waterfall, FRD, BRD, SRS
Project Management Tools: MS Project, MS SharePoint, Microsoft Excel, Microsoft Office, PowerPoint, MS Visio, Smartsheet
Soft Skills: Time management, Leadership and Management, Project Management, Product Management, Problem-Solving | Negotiation, Decision-Making, Documentation and Presentation, Customer Relationship Management (CRM)
Operating System: Windows, Linux, and Mac OS

EDUCATION

Stevens Institute of Technology | Hoboken, NJ
Master of Science - Computer Science

Indraprastha Institute of Information Technology, Delhi, New Delhi
Bachelor in Computer Science and Applied Mathematics
