

Viraj Shah

Business Analyst

virajshah055@gmail.com | 3023650726 | Philadelphia, PA

SUMMARY

Business Analyst with three years of experience in Agile and Waterfall environments, specializing in advanced data analytics, SQL database management and business process optimization. Skilled in the use of analytical tools such as Tableau, Power BI, and Advanced Excel, as well as techniques such as GAP analysis, risk analysis, and SWOT analysis. Capable of developing comprehensive business requirements documents (FRD, BRD, SRS) and facilitating cross-functional collaboration through the effective use of diagramming tools such as Microsoft Visio and Lucid chart. A proven track record of enhancing project delivery, stakeholder satisfaction, and achieving strategic business goals. Strong communicator and analytical thinker committed to driving business efficiency and innovation.

EDUCATION

Master of Science in Business Analytics | Drexel University - Philadelphia, PA

Bachelor of Engineering in Electronics and Telecommunication | Mumbai University – Mumbai, India

CORE COMPETENCIES

Methodologies: Agile, Waterfall

Programming Skills: SQL, R Language, Python

Documentation: FRD, BRD, SRS

Diagramming and Modeling Tools: Microsoft Visio, Lucid chart, Draw.io, Trello, Asana

Tooling Skills: SQL, Tableau, Power BI, Advance Excel, Microsoft Tools (Teams, Project, Visio, Office)

Analysis Skills: Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis

Tracking/Other Skills: Jira, Microsoft Visio, HP Quality Center, JAD, RTM, UAT, Confluence, Figma, and Business Intelligence

Soft skills: Communication Skills, Analytical Thinking, Cross-Functional Collaboration, Stakeholder Management

EXPERIENCE

Cigna, PA | Oct 2023 – Currently working

Business Analyst

- By enhancing coordination and iterative feedback, spearheaded a team of 2 using Agile methodologies, resulting in 20% faster development project delivery.
- Developing and maintaining statistical models in Python and R, improving predictive accuracy by 20% and facilitating strategic decision-making. Utilized SQL for data extraction and analysis, creating complex queries that enhanced business intelligence reporting and improved model accuracy by 15%.
- Prepare and revise Functional Requirement Documents (FRD) and Business Requirement Documents (BRD) for more than 15 projects, enhancing clarity and cross-functional alignment.
- Implementing Microsoft Visio and Lucid chart process flow diagrams, improving process understanding and reducing miscommunication among project stakeholders by 25%.
- Utilizing Tableau to create dynamic dashboards and reports that decreased data retrieval time and enhanced real-time decision-making for management.
- Identified and mitigated project risks using SWOT analysis, ensuring project delivery was not impacted by unforeseen circumstances.
- Managing end-to-end tracking of software development and documentation processes using Jira and enhancing project transparency
- Facilitate JAD sessions that gather critical requirements from cross-functional teams, enhancing the feature set by 20% and aligning final products more closely with user needs.
- Implementing data analytics practices that transformed raw data into actionable business intelligence by identifying key trends in customer behavior and product performance.

InfoWay Solutions, Ind| Jan 2020 – Aug 2022

Business Analyst

- Developed and implemented a business intelligence solution using R Language and Python, providing actionable insights that led to increase in sales and increase in customer engagement. Leveraged SQL to gather, clean, and analyze data, streamlining the reporting process and increasing data retrieval efficiency by 30%.
- Created comprehensive Functional Requirements Documents (FRD), Business Requirements Documents (BRD), and Software Requirements Specifications (SRS) to align project objectives with stakeholder needs.
- Employed Power BI for data visualization and analysis, providing actionable insights to stakeholders.
- Demonstrated proficiency in Advanced Excel and Microsoft Tools for project planning, collaboration, and documentation.

ACCOMPLISHMENTS

- **Certifications:** Cleaning Data In R, Introduction to data Visualization, introduction to python, Microsoft-Data Analyst Associate.
- Analyzed Drexel's feedback data through text mining with R, identifying key sentiments and visualizing patterns with word clouds.
- Strategy Simulation: Value Champion and maritime valuation case studies from Harvard Business School.
- Airbnb Case study: Performed data analysis of Airbnb offerings, focusing on accommodation types, pricing, and customer reviews.
