Work Experience

CEO and Founder

Pixel Academy

July 2020 to Present

Pixel Academy is an educational institute aimed at current 11th and 12th IB diploma students for educational support. My role in Pixel is not limited to management only, as one of the founders it is my responsibility to gather potential investors for Pixel. This is where I have utilized my skills and knowledge of marketing to gather potential investors and venture capitalists.

Over the last 3 months, I have worked with 2 different companies as part of Series A funding, and also convinced many of my friends to be shareholders in pixel. Currently, my goal is to go public and get enlisted into the stock market.

Personal Assistant

Medhaswini Chit Fund

March 2020 to May 2020

I was assigned the role of a personal assistant as a replacement for 2 months. During this time period, I had to manage the daily schedule, make/cancel appointments, act as a point of contact for the employees, manage a diary in which I would mark all the important dates and all the important meetings scheduled in that week for my employer. Even though I was there for a short time I really enjoyed working as a personal assistant and was able to develop life-long skills such as time management and workload management.

Manager

Mask- off- Event

September 2019 to December 2019

Whilst coordinating and organizing the event I was also responsible for monitoring the cash flow of the project. My responsibility was to monitor the daily transactions of the event, manage the limited budget allocated and keep a track of all the financial transactions. At the end of the month I was to present the monthly cash flow sheet to my team and get it approved.

Education

Bachelor's in Computer Science

University of Pittsburgh-Bradford - Bradford, PA

August 2020 to Present

International Baccalaureate diploma certificate in Literature and Language

Indus international School

2018 to 2020
