

ASHTAGEETA HINGMIRE

469-866-7955 | ashtageeta@gmail.com | www.linkedin.com/in/AshtageetaHingmire | <http://github.com/Ashtageeta> | Irving, TX

SKILLS

Proficient In: Quantitative Modeling and Analysis, Salesforce, Python, NumPy, Pandas, Keras, TensorFlow, SciPy, Pytorch, Scikit-learn, Matplotlib, NLTK, Scrapy, plotly, Seaborn, R, Advanced SQL, MongoDB, Tableau, PowerBI.
Programming language: Python, R, SQL, NoSQL, Excel, Linux shell script, JavaScript, HTML, CSS
Certifications: Salesforce Certified Business Analyst, Salesforce Advanced Administrator (ADM-211), (ADM-201) and App Builder Certified, Tableau Desktop Specialist Certified, Microsoft Certified Azure Data Scientist Associate & (DP-100).
Tools: MS Excel, Tableau, Power BI, Qlik, Oracle SQL 11g, Splunk, Apache Spark, Snowflake, REST APIs, Jira, Git.

EXPERIENCE

Graduate Assistant – Texas A&M University, Commerce. May 2023 - Present

- Provided guidance to diverse groups of students in their personal and academic growth strongly focus on their research.
- Assisted the TRIO McNair Program Assistant Director and department faculty mentors in identifying, recruiting, and selecting program participants and tracked project progress reported transparently on program outcomes.
- Used Blumen, Compansol, Qualtrics, Excel, and Microsoft Office to develop reports and accurate transparent documentation of program activities, project updates, outcomes and achievements and conducted seminars and workshops.

Graduate Engineer Trainee, Enclave Engineering Services Pvt. Ltd, Pune, India. Oct 2020 – Oct 2021

- Analyze complex datasets using Tableau, SQL, Python and Google Analytics conducted quantitative research.
- Develop custom reports using SQL queries, including financial and operational reports. Recommend and establish KPIs; monitor and analyze metrics for recurring analysis and reporting. Use JIRA for project tracking and management.
- Analyze purchasing behavior of 30,000 members based in India and forecast demand to recognize high-selling items.
- Design test strategies for beta, pilot, and early adopter programs, ensuring integration of new products or features.
- Designed, developed, tested ETL and BI solutions, encompassing real-time data pipelines, visualizations reports.

Associate Systems Operations Intern, R.V Automation, Pune, India April 2020 - July 2020

- Worked on Network Alarm reduction and Ticket Optimization feature, using Predictive Modeling techniques and Splunk logs led to 30% anomaly reduction in network alarms. Analyze feature usage for prioritization of new features.
- Developed a model which determines the number of sites to be installed to serve the population in a particular region by extracting the deviceID with Splunk queries and develop Python model using Scikitlearn and Keras.
- Collaborate with the Product Management team to identify critical metrics and narrate story about product usage trends.
- Use lean methodology define business problems, formulating hypotheses validate solutions within the build-measure-learn cycle.

Analyst Intern – Toyo Engineering Pvt. Ltd, Mumbai, India Dec 2019 - Jan 2020

- Performed Exploratory Data Analysis using Python for oil and gas production data, built a linear regression model on performance prediction from over 20,000 datapoints and achieved overall 88% accuracy time.
- Applied knowledge of Agile SCRUM and Lean methodologies in project execution, conduct quantitative research and presented findings using platforms Tableau and PowerBI showcasing advanced data visualization skills.
- Developed quality control metrics, applied multiple imputation methods and K Nearest Neighbor to predict 15% missing values variables, fixed structural errors and removed outliers in data. Used NoSQL & APIs analytics pipeline.

Graduate Intern, Nova Engineering Industry, Thane, India Dec 2018 - Jan 2019

- Execute discovery phase of SDLC, identified potential features and conducted business ROI research.

EDUCATION

MS in Business Analytics – Marketing Decision Analytics Aug 2022 – May 2024
Texas A&M University, Commerce, TX **GPA – 4.0**

Post-graduate Diploma in Big Data Analytics Sep 2021 – Apr 2022
Centre for Development of Advanced Computing (C-DAC), Noida, India **GPA – 3.8**

Bachelor of Engineering in Mechatronics Engineering Aug 2016 -Oct 2020
New Horizon Institute of Technology and Management, Thane, India.

ACADAMIC PROJECTS

A Novel Intrusion Detection Model for Detecting Known and Innovative Cyber-attacks Using Convolution Jan 2023 – May 2023

- Cleaned, analyzed KDD cup IDS datasets using preprocessing techniques, trained tested the dataset, implemented Hybrid ML such as Logistic, SVM, K-Mean, and Bayesian Linear Regression, in Spyder s/w to enhance performance.

Visual Speech Recognition, Texas A&M University, Commerce Sept 2022 – Dec 2022

- Built a lip-reading module in deep learning which takes in an input of video of the speaker without audio and converts it into text. Tools: Machine learning and image processing (Keras, TensorFlow, Pytorch, Dlib, RNN, CTC, LSTM)

Sarcasm Detection using Neural Language Processing, Texas A&M University, Commerce Jun 2022 – Aug 2022

- Tokenized words and converted them into vectors. Analyzed sentiments and developed neural networks to detect sarcasm.

Walmart sales forecasting, Texas A&M University, Commerce Jan 2022 – May 2022
