

ABHISHEK NAIDU DATTI

Business Analyst

OH, USA | +1 (216) 327-3169 | Email: abhishekdatti04@gmail.com | [LinkedIn](#)

Professional Summary

Results-driven Business Analyst with 5+ years of experience in delivering data-driven solutions across healthcare and IT sectors. Proven expertise in requirements gathering, process optimization, and stakeholder management. Adept at utilizing Agile methodologies, SQL, Tableau, and Jira to drive business transformation and enhance operational efficiency.

Professional Experience

Business Analyst (Internship), IBM, USA

Jan 2025 – Present

- **Project Management & Stakeholder Engagement:** Led requirements gathering sessions with cross-functional stakeholders (clinical, IT, operations) to ensure alignment on project scope, objectives, and timelines, ensuring stakeholder satisfaction and project success.
- **EHR System Implementation:** Managed the implementation of a new Electronic Health Record (EHR) system, translating clinical and operational requirements into actionable specifications, reducing data entry errors by 20%.
- **SQL Data Analysis:** Extracted, cleaned, and analyzed large clinical datasets using SQL to identify trends, operational inefficiencies, and provide actionable insights that supported strategic business decisions.
- **Data Visualization:** Created and maintained real-time dashboards using Tableau, monitoring key performance indicators (KPIs) related to clinical workflows, resulting in more informed decision-making across the team.
- **Agile Methodology Implementation:** Facilitated Agile ceremonies, including sprint planning, daily stand-ups, and retrospectives, contributing to the on-time and on-budget delivery of high-impact projects.
- **User Acceptance Testing (UAT):** Collaborated with QA teams to design and execute UAT scripts, ensuring system features met business requirements and improving product quality by 15%.
- **End-User Training:** Developed training materials and conducted training sessions for end-users on the new EHR system, resulting in a 30% increase in system adoption within three months of deployment.
- **Process Improvement:** Identified areas of improvement in clinical workflows and business processes, implementing changes that led to a 25% reduction in patient processing time.
- **Risk & Issue Management:** Actively tracked project risks and issues, developed mitigation strategies, and worked with stakeholders to ensure project deliverables were met within scope and budget.

Business Analyst, HCL Tech, India

Nov 2018 – July 2023

- **Business Process Re-engineering:** Led the re-engineering of business processes for a financial services client, identifying key bottlenecks and redesigning workflows to improve efficiency by 15%.
- **Requirements Documentation:** Collaborated with business stakeholders to gather and document business requirements, translating them into functional specifications and user stories that guided IT development teams.
- **SQL Data Extraction & Analysis:** Utilized SQL to query and analyze transactional data, identifying patterns and trends that informed business strategies, improving decision-making across departments.
- **Agile Delivery Management:** Worked closely with Agile Scrum teams, participating in sprint planning, backlog grooming, and sprint reviews, ensuring the successful delivery of features in line with business priorities.
- **Stakeholder Communication & Reporting:** Acted as the liaison between business stakeholders, IT teams, and senior leadership, ensuring clear communication of project status, risks, and resource requirements.
- **Data Visualization & Reporting:** Designed and deployed operational dashboards in Power BI to track KPIs such as customer satisfaction, transaction volumes, and financial performance, resulting in faster decision-making.
- **UAT & Quality Assurance:** Developed UAT test cases, managed test cycles, and facilitated defect tracking, ensuring that system implementations met business requirements and improving product quality by 20%.
- **Training & Documentation:** Assisted in developing user manuals and training sessions for new system features, resulting in higher end-user satisfaction and better system utilization across departments.
- **Project Risk Management:** Proactively identified risks, managed project timelines, and worked with the project team to ensure that potential risks were mitigated and project milestones were achieved as planned.

Technical Skills

- **Programming Languages:** SQL, Python (Pandas, NumPy, Matplotlib), R
- **Analysis & Modeling:** Business Process Modeling, GAP Analysis, SWOT, Data Profiling, Forecasting
- **Business Analysis:** Requirements Gathering, Process Mapping, Gap Analysis
- **Databases:** SQL Server, MySQL, PostgreSQL, Snowflake
- **Reporting & Documentation:** Power BI, Tableau, SSRS, Excel PowerPivot, BRD, FRD, SRS, SOW
- **Tools:** JIRA, Confluence, MS Visio, Lucidchart, Tableau, Power BI, Excel (Pivot Tables, VLOOKUP, Macros)
- **Tools & Technologies:** Microsoft Visio, Tableau, Power BI, MuleSoft, Excel (Advanced), SAP BI, SQL, Tableau, Power BI
- **Project Management:** Jira, Trello, Service First, ServiceNow, Agile (Scrum & Kanban), Waterfall, JIRA, Confluence, UAT Coordination
- **Soft Skills:** Cross-functional Collaboration, Executive Reporting, Analytical Thinking, Time Management, Problem Solving

Education

Master | Cleveland state university, Cleveland, USA

Aug 2023 - May 2025

Bachelor | Vishnu Institute of Technology, Bhimavaram, India

Aug 2016 - May 2020
