

Abhisheksingh Rawat

BI Analyst

(469) 759-0268 | abhishekrawatus@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Business Intelligence Analyst with 4+ years of experience in designing, developing, and optimizing **data analytics solutions** that drive strategic decision-making and operational efficiency. Proven expertise in **ETL pipeline development**, **data modeling**, and **dashboard automation** across cloud and on-prem environments. Adept at translating complex business requirements into scalable data solutions using **Azure Data Factory, SQL, Python, Power BI, and Tableau**. Known for ensuring **data quality, audit compliance, and cross-functional collaboration** that improves business outcomes and accelerates growth.

TECHNICAL SKILLS

Programming Languages: Python, R, SQL, T-SQL, C

Data Visualization & BI Tools: Power BI, Tableau, Streamlit, Excel (Pivot Tables, LOOKUP, Macros)

Databases & Warehousing: SQL Server, MySQL, PostgreSQL, Snowflake, Teradata, SQLite3

ETL & Data Engineering: Azure Data Factory (ADF), Databricks, Airflow, SSIS, Data Cleansing, Feature Engineering

Frameworks & Libraries: Pandas, NumPy, Matplotlib, ggplot2, Scikit-learn, TensorFlow

Cloud & Big Data: MS Azure (Data Lake, Data Factory, Databricks), AWS (S3, EC2), Spark, PySpark

Collaboration Tools: GitHub, JIRA, Jupyter Notebook, Confluence

Methodologies: Agile/Scrum, SDLC

Certifications: Microsoft Certified: Azure Data Engineer Associate, Microsoft Certified: Power BI Data Analyst Associate, Salesforce Certified Administrator

PROFESSIONAL WORK EXPERIENCE

Dreamline AI, USA (Remote) | BI Analyst

July 2025 - Present

- Designed and implemented **star schema data models** across Snowflake and MySQL warehouses, improving **query efficiency by 35%** and enabling **real-time analytics**.
- Conducted in-depth data analysis using **Python (Pandas, NumPy)** and **SQL**, uncovering actionable insights that improved **marketing ROI** and reduced **customer churn by 25%**.
- Collaborated with business teams to define KPIs, develop **data pipelines**, and enhance reporting automation for executive dashboards.

Community Dreams Foundation, USA (Remote) | BI Analyst

Mar 2025 - July 2025

- Developed and automated **9+ interactive dashboards** using **Tableau** and **Streamlit**, improving data visibility and reducing manual reporting effort by **60%**.
- Analyzed **2,000+ customer reviews** using Python's NLP libraries to identify sentiment patterns, increasing classification accuracy by **18%**.
- Built advanced **Excel-based financial models** (Pivot Tables, Macros, LOOKUPS) that reduced reporting errors by **35%** and enabled faster financial forecasting.

Bright Mind Enrichment & Schooling, USA (Remote) | Data Analyst

Aug 2024 - Mar 2025

- Automated **data quality checks and metadata validation** using **Python**, improving data accuracy and ensuring **100% audit compliance** across 14+ global partners.
- Developed **complex SQL queries** (CTEs, window functions, stored procedures) for grant fund and engagement analysis, improving reporting accuracy by **30%**.
- Designed **Airflow DAGs** for data ingestion and transformation, reducing manual processing by **70%** and improving data reliability.
- Built interactive **Power BI dashboards** combining multi-source data (CSV, Excel, JSON), enhancing decision-making efficiency by **40%**.
- Created a **forecasting model** using **Scikit-learn** to predict grant utilization trends, improving budget planning accuracy by **25%**.
- Collaborated with stakeholders to define metrics, gather business requirements, and lead **UAT sessions** for deployed analytics solutions.

Tata Consultancy Services(TCS), India | BI Analyst

Aug 2019 - Jun 2022

- Architected **ETL pipelines** using **Azure Data Factory** and **Databricks (PySpark)** to migrate **2M+ daily transactions** from legacy systems into Azure Data Warehouse.
- Enhanced enterprise reporting and **revenue forecasting accuracy by 20%** through a centralized data warehouse serving as a **single source of truth**.
- Developed **Python-based data validation frameworks** that reduced QA time by **70%** while maintaining **99.5% data integrity**.
- Partnered with business and engineering teams to translate requirements into **data mapping blueprints** for legacy-to-cloud migration.
- Managed project delivery through **JIRA/Confluence**, maintaining a **95% on-time completion rate** across agile sprints and stakeholder reviews.

EDUCATION

Master's in IT & Management | University of Texas at Dallas, TX, USA

May 2024

Bachelor's in Computer Engineering | University of Mumbai, India

May 2019
