

SRI LAKSHMI SWETHA ADDEPALLI

AI & Machine Learning Engineer | Data Scientist

Tallahassee, FL, USA

+1(850)405-7886 | sa23m@fsu.edu | <https://www.linkedin.com/in/swetha-addepalli>

Education

Florida State University

M.S., Data Science - Computer Science (GPA: 3.97/4.0)

- **Achievements:** Graduate Research Assistant focusing on business intelligence and data-driven decision making in energy sector applications.
- **Coursework:** Data Mining, Machine Learning, Advance Data Science, Artificial Intelligence, Applied Regression, Data Structures and Algorithm

Jawaharlal Nehru Technological University

B.Tech., Computer Science and Engineering (GPA: 9.01/10.0)

- **Achievements:** Academic Excellence Awardee (3-times University Topper)
- **Coursework:** Cloud Computing, Artificial Intelligence, Big Data, Machine Learning, Web Development, Data Structures and Algorithms

Technical Skills

- **AI/ML Technologies:** Deep learning frameworks, predictive modeling, neural networks, computer vision, natural language processing
- **Programming & Analysis:** Python (pandas, NumPy, TensorFlow, PyTorch), R, SQL, SAS
- **Data Engineering:** Data pipeline development, ETL processes, data validation, quality assessment
- **Visualization Tools:** Tableau, Power BI, data storytelling for business insights
- **Collaboration Tools:** JIRA, Agile methodologies, version control systems, Git

Experience

SmartProtect Public Safety Solutions | Data Analyst Intern | Wilmington, DE

Jan 2025 - Present

- Implemented machine learning algorithms to analyze industrial safety data, ensuring 99.5% accuracy through rigorous validation procedures and automated quality checks.
- Engineered comprehensive Power BI dashboards to visualize performance metrics and anomaly detection, achieving 95% user satisfaction rate while enabling data-driven decision making.
- Collaborated with cross-functional teams to identify data quality issues, implementing AI-based solutions that improved data integrity by 15% and enhanced predictive capabilities.

Florida State University | Graduate Research Data Analyst | Tallahassee, FL

Apr 2024 – Dec 2024

- Developed machine learning models for energy consumption pattern analysis, ensuring data integrity for 1M+ records .
- Evaluated multiple data sources using advanced AI techniques for accuracy and completeness, resulting in recommendations that improved data reliability by 30%.
- Created comprehensive dashboards using Tableau, enabling stakeholders to visualize complex AI/ML model outputs, increasing data exploration capabilities by 300%

Young Minds | Artificial Intelligence Intern | Tirupati, India

Aug 2022 - Dec 2022

- Designed and implemented neural network architectures using Python, TensorFlow and PyTorch, reducing processing time by 35% while improving data quality for industrial applications.
- Created interactive dashboards with drill-down capabilities, enabling stakeholders to explore ML model outputs and improving operational efficiency by 15%

Learn and Build | Machine Learning Intern | Jaipur, India

Jan 2022 - May 2022

- Led development of predictive models for projects such as Phone Directory and Startup Profit Predictor, achieving a **95% accuracy rate**.
- Streamlined ML workflows, **reducing project timelines by 15%** through innovative ideas and efficient **data analysis** techniques.

Projects

Tallahassee Weather Data Analysis

Aug 2024 - Nov 2024

- Conducted an **in-depth analysis** of over **70 years of weather data** (1948 – 2022) from Tallahassee to identify anomalies and seasonal trends: improving accuracy by 15% using **advanced statistical methods** such as **ARIMA** and **z-score analysis**.

Brain Tumor Detection

Jan 2023 - May 2023

- Created a **machine learning algorithm** utilizing CNN, ANN, and KNN models to detect brain tumors from MRI scans, achieving a **30% reduction** in false positives and enhancing diagnostic accuracy.

Object Detection with YOLOv4

Sep 2022 - Nov 2022

- Engineered a real-time detection system using **YOLOv4**, enabling **90% accuracy** in object recognition across live video feeds for applications in security and automation.

Certifications & Achievements

- **Data Analysis, SQL, and Cloud Computing:** Certified in Data Analysis, SQL, and Cloud Computing by IBM and Microsoft.
- Recipient of the **“110% Effort Award”** for outstanding contributions in Event Management, demonstrating initiative and leadership.
- Awarded **"Academic Excellence" 3 times** annually as the College Topper at JNTU for consistently achieving the highest academic performance.
