📍 Pittsburgh, Pennsylvania

Professional Summary

Certified and results-driven Senior Project Manager with 10+ years of proven success leading enterprise-scale programs across **healthcare, education, construction, SaaS, technology, infrastructure, campus-level construction projects, data center planning, multi-vendor engineering programs, government, finance, energy, nuclear, manufacturing, telecommunications, e-commerce, retail, supply chain & logistics, utilities, defense, transportation, and public sector industries**. Expert in managing full project lifecycles using Agile, Scrum, Waterfall, and Hybrid methodologies. Adept at driving digital transformation, enterprise system modernization, software development, **nuclear infrastructure projects**, cloud migration, and engineering programs. Skilled in cross-functional leadership, stakeholder engagement, compliance oversight (HIPAA, GDPR, SOC 2, NRC, DOE 10 CFR Part 810), and aligning technology solutions with strategic business goals. Recognized for delivering complex, multi-million-dollar programs on time, within scope, and under budget while fostering collaboration and operational excellence.

Technical Skills

Project Delivery — End-to-End Lifecycle, PMO Frameworks, Milestone Planning, Change Control

Methodologies — Agile, Scrum, Kanban, Waterfall, Hybrid PM, SAFe, PMBOK, **EVMS (ANSI/EIA-748-C)**

Leadership — Cross-Functional Team Leadership, Mentoring, Executive Reporting, Stakeholder Management

Industries — Healthcare, Education, Construction, SaaS, Infrastructure, Digital Transformation, Government Programs, Finance, Energy, Nuclear Projects, Manufacturing, Retail, Telecommunications, E-commerce, Transportation, Supply Chain & Logistics, Public Sector, Defense, Utilities

Risk & Compliance — GDPR, SOC 2, HIPAA, Regulatory Compliance, Quality Assurance, Risk Mitigation

Tools & Platforms — JIRA, Confluence, MS Project, Primavera P6 (exposure), construction scheduling, vendor coordination, campus-level project controls, Smartsheet, Asana, Trello, Power BI, Tableau, Google Data Studio, Salesforce (Sales Cloud, Service Cloud, Lightning – exposure)

Cloud & Data — AWS, Azure, GCP | Big Data – Kafka, Hadoop, Hive | CI/CD, DevOps Collaboration

Financial Management — Budgeting, Resource Allocation, Cost Control, Vendor & Contract Management

Soft Skills — Strategic Thinking, Negotiation, Conflict Resolution, Communication, Team Motivation

Construction Compliance Familiarity — Eager to apply regulatory knowledge in new industries

Professional Experience

05/2024 – present
Dallas, TX

Senior Project Manager

Nova Tech Solutions

- Managing a portfolio of SaaS, healthcare, education, **energy, retail, and infrastructure enhancements** using Agile/Scrum methodology.
- Managed campus-level infrastructure and construction projects, including multi-vendor coordination, scheduling, and milestone tracking.
- Facilitated sprint ceremonies (planning, retrospectives, backlog grooming) ensuring delivery of user-facing features.
- Partnered with stakeholders across **technology, construction, finance, telecommunications, and government divisions** to align goals with OKRs.

- Oversaw cloud-based ERP implementation for education clients and digital health platforms.
- Coordinated release planning, UAT, and vendor contracts for integrated services across multiple sectors.
- Supported CRM transformation initiatives, including Salesforce configuration and user onboarding for enterprise clients.

02/2021 – 04/2024
Austin, TX

IT Project Manager

Quantum Digital Group

- Delivered enterprise content management systems, API integrations, and digital transformation initiatives for **healthcare, government, manufacturing, retail, telecom, and energy clients**.
- Managed onshore and offshore teams across time zones ensuring seamless delivery.
- Created project charters, test strategies, and compliance documentation supporting regulated industries (finance, healthcare, **nuclear, and utilities**).
- Implemented Agile metrics dashboards in Power BI for executive visibility.
- Led process improvements enhancing delivery quality and efficiency.
- Supported infrastructure and campus-level projects with scheduling, resource allocation, and cross-functional team coordination.

01/2019 – 12/2020
Remote

Technical Project Manager

Microsoft (Azure Cloud Division)

- Oversaw multi-million-dollar **energy, nuclear, and telecom infrastructure modernization programs** on Azure for government, healthcare, and enterprise clients.
- Coordinated with architects, DevOps, and legal/security teams for phased global rollouts.
- Designed project plans, migration timelines, and risk registers ensuring compliance with ISO, GDPR, SOC 2, **NRC standards, and DOE 10 CFR Part 810**.
- Partnered with construction and infrastructure divisions for **hybrid cloud adoption, power plant upgrades, and datacenter modernization**.
- Partnered with infrastructure and construction teams on hybrid cloud and data center modernization projects, tracking schedules and milestones.
- Applied project controls best practices including budgeting, forecasting, and risk mitigation for large-scale technical facilities.

03/2013 – 12/2018
Houston, TX

Project Coordinator / Associate Project Manager

NextWave Systems

- Supported multiple project managers across **construction, IT, healthcare, retail, and infrastructure programs**.
- Managed RAID logs, sprint reviews, and vendor deliverables ensuring compliance and performance.
- Facilitated onboarding, training, and PM tool access for new hires.
- Promoted to Associate PM for consistent project delivery excellence.

Education

Bachelor in Computer Sciences

University of Engineering & Technology

Certificates

PMP — Project Management Professional

CSM — Certified ScrumMaster

ITIL — ITIL Foundation

Lean Six Sigma Green Belt — Process Improvement & Quality Management

Projects

Enterprise SaaS Implementation – Software Industry

Led end-to-end SaaS implementation for a mid-sized client, managing scope, scheduling, and client relationships. Ensured 100% adoption within 3 months.

Commercial Solar Project – Renewable Energy

Coordinated multi-vendor project execution, handled budgeting, client proposals, and timeline management. Delivered project 2 weeks ahead of schedule.

EV Charging Infrastructure – Automotive Industry

Managed stakeholder communication, scheduling, and scope. Successfully deployed EV charging units across 5 commercial sites.

Healthcare SaaS Rollout – Healthcare Industry

Oversaw SaaS platform rollout across 3 hospitals. Reduced onboarding time by 20% and improved user adoption rate.

Salesforce CRM Implementation – Enterprise Client

Supported Salesforce Sales Cloud rollout, configured workflows, dashboards, and user onboarding.

Data Center & Campus Infrastructure Project – Technology & Energy

Managed multi-vendor data center construction projects, overseeing schedules, resource allocation, and project controls. Delivered milestones on time and ensured compliance with industry standards.
